

# PIMS CTE Student Industry Credential (Pennsylvania)

Last Modified on 03/11/2024 8:45 am CDT

[Report Logic](#) | [Generate the CTE Student Industry Credential Template](#) | [Report Layout](#)

**Classic View:** PA State Reporting > PIMS Extracts > CTE Student Industry Credential Template

**Search Terms:** PIMS Extracts

The CTE Student Industry Credential Template records industry certifications earned by students during the reporting year as a direct result of the student's enrollment within the PDE-approved secondary reimbursable CTE program reported within the [CTE Student Fact Template](#).

See the [PIMS Reporting](#) article for additional PIMS Reporting information.

## Report Logic

Only students who have an Industry Credential Code saved per the CIP Classification report. Student information is reported from the student [CTE](#) tool. Multiple records for a student report if there is more than one Industry Credential Code saved per CIP Classification.

The file name for for this extract is in the same format as other PIMS extracts:

StateDistrictNumber\_ReportName\_Date/Time

(example: 122091352\_CTE\_STUDENT\_CREDENTIAL\_201408280246).

## Generate the CTE Student Industry Credential Template

1. Select **CTE Student Industry Template** from the **Extract Type** from the dropdown list.
2. Select the desired **Reporting Period**.
3. Enter the **Effective Date** of the extract in *mmddyy* format or use the calendar icon to select a date.
4. Enter the **Prior Reporting Date** of the extract in *mmddyy* format or use the calendar icon to select a date.
5. Select the **Format** of the extract.
6. If desired, select an existing **Ad hoc Filter** from which to report students. Only those students included in the filter and who meet the reporting population are included in the extract.
7. Select the desired **Grades** to include in the report.
8. Select the appropriate **Calendar(s)** from which to include data on the extract.
9. Click the **Generate Extract** button or the **Submit to Batch** button, if available. The extract displays in the selected format.
