The Student Special Education Record (GE) is to be reported for all students with a disability or suspected to have a disability. For students reported during the October and December reporting periods, a record is to be reported for all events that occur from June 1st of the prior school year through December 1st of the current school year.

A record is only reported for students attending a public school or for students placed in a non-public school by a public school district. All EMIS reporting entities who either provide education or services to students with disabilities or are the resident district must report this record, except JVSs and ESCs.

A record reports for all students who have a Special Education Program with an end date or start date within the Date Range entered on the extract editor.

Report Population and Logic

The logic of this report differs based on the fields entered in the student's Ohio IEP. The following event types describe each scenario that would cause the elements in this extract to report as described. See the [Layout table](#) below for the details of each field. Following the Report Layout, the [Event-Specific Logic](#) table describes how individual fields report based on the Event Type.

Rule #	Requirements
R1	The following list contains specific logic for state reported Special Education events. All of these events share the same reporting format/elements so there are circumstances when an element in one event is treated differently than in another. Selecting each event details element specific logic pertaining to that particular event. Note: All event record length is = 300 chars.
R1.BR1	If Pull Prior IEPs/Evals is selected, and student has an Admission Date* greater than the Start Date of the extract editor, report the most recent Evaluation (IETR, RETR, TETR, CNST, RFRL) and Plan (IIEP, RIEP, TIEP) that has a Meeting Date prior to the Start Date of the extract editor. *Student Info > General > Enrollments > District Entry Date, with additional logic used when District Entry Date = null.
R1.BR2	Only the PSTC event should report from SPED Dates. Use the Date field and Preschool Transition Conference Date to determine the most recent SPED Dates record.
R1.BR3	Report the most recent SPED Dates record prior to the Start Date of the extract editor.
R1.BR4	Do not report a record for an ETR when GE Exclude is checked on the ETR.
R1.BR5	Do not report a record for an IEP when GE Exclude is checked on the IEP.
R1.BR6	Do not report a record if the effective date is greater than 3 years from the ETR meeting date.
R1.BR7	Do not report a record if effective date is greater than the IEP end date
R1.BR8	When the GE record is generated with the Pull data from SPED product integration option checked: <ol style="list-style-type: none"> 1. When the student has any non-State Exclude that occurred on or between the extract editor Start and End Date range, a record must be reported for the student when the SameGoal record exists. 2. When the student has only State Exclude enrollment(s) on or between the extract editor Start and End Date range, no records may report for the student.
R2	The report can be run against a district's active year as well as any prior year.
R3	The report can be run in District Editions.
R4	The report is generated in XML and CSV formats as well as human-readable format (HTML). The XML format is the State Format.
R5	Enter any requirement to produce the file name here.

Event Label	Description	Logic	Path
CNST	Parent/Guardian Consent for Evaluation	A record reports for a student if that student has an Initial or Reevaluation IEP with a Meeting Date within the date range entered in the Extract Editor.	Student Information > Special Ed > Documents > Evaluation > Parent Consent for Evaluation
FIEP	Final IEP Team Meeting Prior to Graduation	A record reports for a student if that student has a locked Final IEP with an IEP Date within the date range entered in the Extract Editor.	Student Information > Special Ed > Documents > IEP > Meeting Date
IETR	Evaluation Team Report Completion Date - Initial	A record reports for a student if that student has a locked Initial Evaluation with a Meeting Date within the date range entered in the Extract Editor.	Student Information > Special Ed > Documents > Evaluation > Meeting Date, Type: Initial
IIEP	Initial IEP	A record reports for a student if that student has a locked Initial IEP with a Meeting Date within the date range entered in the Extract Editor, unless the student has a Special Ed Status of IEPR.	Student Information > Special Ed > Documents > IEP > Meeting Date, Type: Initial, Special Ed Status
IISP	ISP Completion Date - Initial	A record reports for a student with a locked initial PSP with a Meeting Date within the extract date range.	Student Information > Special Ed > Documents > PSP > Meeting Date, Type: Initial SP
NIEP	No IEP	A record reports for students who have a SPED Dates record with an Outcome entered and an Outcome Beginning Date within the date range. Reports based on the enrollment active on the Outcome Beginning Date that has a Service Type of P or N.	Student Information > Special Ed > SPED Dates > Outcome, Outcome Beginning Date

Event Label	Description	Logic	Path
PSTC	Preschool Transition Conference	A record reports for a student if that student has a Preschool Transition Conference date within the date range entered in the Extract Editor.	Student Information > Special Ed > SPED Dates > Preschool Transition Conference Date
RETR	Evaluation Team Report Completion Date - Reevaluation	A record reports for a student if that student has a locked Re-Evaluation with a Meeting Date within the date range entered in the Extract Editor.	Student Information > Special Ed > Documents > Evaluation > Meeting Date, Type: Reevaluation
RISP	ISP Completion Date - Periodic Review	A record records for a student with a locked Annual Review PSP with a Meeting Date within the extract date range.	Student Information > Special Ed > Documents > PSP > Meeting Date, Type: Annual Review
RFRL	Referral for Evaluation	A record reports for a student if that student has an Evaluation with a Referral for Evaluation Date within the date range entered in the Extract Editor.	Student Information > Special Ed > Documents > Evaluation > Referral for Evaluation
RIEP	Reevaluation IEP	A record reports for a student if that student has a locked Re-Evaluation IEP with a Meeting Date within the date range entered in the Extract Editor. However, if the student has an active and locked Re-Evaluation IEP with a Meeting date within the Extract Editor date range and a Special Ed Status of IEPR, a record does not report.	Student Information > Special Ed > Documents > IEP > Meeting Date, Type: Reevaluation, Special Ed Status

Event Label	Description	Logic	Path
SEMD	Manifestation Determination	A record reports for students who have a Manifestation Determination Date on their SPED Dates tab that falls within the extract date range. Data reports from the enrollment (Service Type P or N) that is active on the Manifestation Determination Date.	Student Information > Special Ed > SPED Dates > Manifestation Determination Date
TETR	Evaluation Team Report Completion Date - Transfer	A record reports for a student if that student has a locked Transfer Evaluation with a Transfer Date within the date range entered in the Extract Editor.	Student Information > Special Ed > Documents > Evaluation > Transfer Date, Type: Transfer
TIEP	Transfer Student IEP Adoption	A record reports for a student if that student has a locked Transfer IEP with a Transfer Date within the date range entered in the Extract Editor.	Student Information > Special Ed > Documents > IEP > Transfer Date, Type: Transfer

This report considers IEPs in the "Ohio IEP 2011 Format" or the "OH IEP" and Evaluations in the "Ohio ETR 2011 Format" or "OH Evaluation". The IIEP, RIEP, TIEP, and AIEP event types also report based on the 2018 and 2019 IEPs. The IETR, RETR, TETR, CNST, and RFRL event types report based on the 2018 evaluation. The IISP and RISP event types report based on the 2018 SP.

If the district has [configured](#) a vertical reporting connection with [SameGoal](#) and *Pull data from SPED product integration* is marked on the extract editor, all fields report from SameGoal rather than from documents created in Campus.

When generating a report, applicable data is reported from a single source: either Campus-managed special education documents or from SameGoal. Data cannot be reported from both sources in a single report. Best practice is to manage special education documents either all in Campus or all in SameGoal.

See the [SameGoal FAQ](#) article for answers to commonly-asked questions about SameGoal connections.

Generating the Extract

1. Select *Student SPED Record (GE)* as the **Extract Type**.
2. Select the proper **Reporting Period**. The Student SPED Record (GE) is required to be reported to the state during each reporting period.
3. Indicate if the extract should **Pull data from SPED product integration** if desired. See the [SameGoal Integration](#) article for more information.
4. Enter the **Date Range** in *mmdyy* format or by clicking the calendar icon and selecting a date. These fields auto-populate with the recommended date range in relation to the **Reporting Period** selected. These dates which determine which student enrollments are reported, based on the Start and End Dates of enrollments within the selected calendar(s). The first date defaults to 07/10 of the calendar start year.
5. Select the **Format**. For submission to the state, select the State Format (Fixed width). To review data prior to state submission, select any of the other available formats.
6. Select the appropriate **calendar(s)** to include within the extract. Students enrolled in the selected calendar(s) are reported.
7. Select an **Ad hoc Filter**, if applicable. Allows a previously created Ad hoc Filter to be selected to limit what students appear in the report. Filters are created in the [Filter Designer](#).
8. Mark **Pull Prior IEPs/Evals** to report students with a Meeting Date prior to the start date entered.
9. Click **Generate Extract** to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate. If generating multiple extracts at a time (after Campus.1921), requests can only be submitted to the Batch Queue.

Users have the option of submitting a Student SPED Record report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.

Report Layout
