

# CTE Student Completion Report (Nevada) [.1905 - .2239]

Last Modified on 07/11/2024 2:09 pm CDT

[Report Logic](#) | [Report Layout](#)

The **CTE Data Extracts (NV)** tool was deprecated as of [Campus.2243](#). Please refer to the [CTE Reports](#) article for information on generating and submitting CTE data to the Nevada Department of Education.

**PATH:** [NV State Reporting](#) > [CTE Data Extracts](#) > [Report Type](#) > [Student Completion Report](#)

This is the fifth upload and reflects students that graduate or should graduate based on their grade level but do not. This extract also reports the student's status that indicates whether they are passing (or not) the Nevada HSPE. This is started in June and can be completed by the end August every year.

**CTE Data Extracts**

This extract editor will generate files to report CTE data. The reports will contain records for CTE students only. Non-CTE students should be excluded. The student's most recent active primary enrollment will be reported. If the student does not have an active enrollment, but the effective date is on or between the Start and End Date of the enrollment, the student's record will be reported in the extract. If the student's enrollment dates are outside the effective date of the report, the enrollment will be ignored and no record will be reported.

# Report Logic

- Students report if they were active AND enrolled in a CTE course at any time during the reporting period AND in 11th or 12th grade.
- Students must be scheduled into a course with the **CTE Course** flag marked on Course > Custom Data Elements.
- Data only reports from Primary enrollments.
- This report does not report for records that have State Exclude, Calendar Exclude, and/or Grade Level Exclude selected.
