

# EL Extract (Montana)

Last Modified on 12/14/2025 8:45 pm CST

[Generating the English Learner \(EL\) Extract](#) | [English Learner \(EL\) Extract Layout](#)

Location: MT Extracts > English Learner (EL)

The English Learner (EL) Extract reports all student EL records with a EL Program Status of 'EL' or 'Exited EL' within the selected calendar(s).

The screenshot shows the 'MT Extracts' web interface. At the top, there's a navigation bar with 'Reporting > MT State Reporting > MT Extracts'. Below this is a header 'MT State Extracts' with a sub-header 'MT State Extracts'. A message states: 'This tool will extract data to complete several formats of the MT State-defined reporting formats. Choose the State Format to get the file in the state defined tab separated file format, otherwise choose one of the testing/debugging formats.' Under 'Extract Options', there's a dropdown for 'Extract Type' set to 'English Learner (EL)', a dropdown for 'Format' set to 'State Format(TSV)', and a 'Generate Extract' button. To the right, under '\*Select Calendars', there's a section 'Which calendar(s) would you like to include in the report?' with radio buttons for 'active year', 'list by school', and 'list by year'. A list of schools is shown, with '23-24 Emerson School' selected. The list includes: 23-24 Butte Central Elementary, 23-24 Butte High School, 23-24 East Middle School, 23-24 Emerson School, 23-24 Hillcrest School, 23-24 Kennedy School, 23-24 Margaret Leary School, 23-24 West Elementary School, 23-24 Whittier School, CC 23-24 Butte High School, and WEH 23-24 West Elementary School. A note at the bottom says 'CTRL-click or SHIFT-click to select multiple'.

The extract can be generated in the following formats:

- State Format (TSV)
- HTML
- CSV
- XML

Use the State Format when all data has been reviewed for accuracy and information is ready to be uploaded. Use one of the other formats for data review and testing.
