The Student Course Enrollment Template reports information on a student's enrollment in each course/section combination.

See the [PIMS Reporting](#) article for additional PIMS Reporting information.

## Report Logic

One record per calendar, student, course and section reports. All active students currently enrolled in a course/section during the time frame of the selected calendar report. Any student who had an enrollment in a course/section during the selected calendar reports. This includes students who may have an inactive enrollment at the time the report is generated.

- Inactive courses are not reported.
- Courses marked as Exclude are not reported.

## Generate the Student Course Enrollment Template

1. Select **Student Course Enrollment** from the **Extract Type** from the dropdown list.
2. Select the desired **Reporting Period**.
3. Enter the **Effective Date** of the extract in *mmddyy* format or use the calendar icon to select a date.
4. Enter the **Prior Reporting Date** of the extract in *mmddyy* format or use the calendar icon to select a date.
5. Select the **Format** of the extract.
6. If desired, select an **Ad hoc Filter**.
7. Select a **Grade** level for the extract.
8. Select the appropriate **Calendar(s)** from which to include data on the extract.
9. Click the **Generate Extract** button or the **Submit to Batch** button, if available. The extract displays in the selected format.
