

Ed-Fi v3.X - Student School Food Service Program Association Resource Preferences

Last Modified on 10/21/2024 8:22 am CDT

Tool Search: Ed-Fi Configuration

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to set the resource preferences for the Student School Food Service Program Association resource. If the Configure or Edit buttons do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.

If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly.

1. Select the appropriate **Ed-Fi Code** for the Student School Food Service Descriptors.

Any item not mapped will not report to Ed-Fi.

POS Eligibility	
UI Location	FRAM > Eligibility > Eligibility
Attribute Dictionary	System Administration > Custom > Attribute Dictionary > POS Eligibility

Student School Food Service Descriptors

POSEligibility Eligibility	Ed-Fi Code
F: Free	F: Free ▼
