Tool Search: PIMS Extracts

The Student Template reports data from student enrollments as well as demographics information.

PIMS Extracts ☆

PA PIMS State Extracts

This tool will extract data to complete the PA-defined PIMS extracts. Choose the State Format to get the file in the state defined comma-delimited format, otherwise choose one of the testing/debugging formats.

PIMS Student Template

See the [PIMS Reporting](#) article for additional PIMS Reporting information.

Report Logic

The Student Template reports records for all students enrolled in the selected calendar(s) between the Start Date and and the Effective Date entered during report generation.

All Enrollment Service Types (Primary, Partial, Special Education) are reported.

Report Editor

| Field | Description |
|------------------------------------|---|
| Extract Type | Determines the type of PIMS Extract being generated. |
| Start Date | The entered date is used to return all enrolled students between this date and the Effective Date. |
| Effective Date | Entered date is used to return all students enrolled between the Prior Reporting Date and this date. |
| Format | Determines how the extract generates. Extracts can be generated in State Format (comma delimited) or HTML. Use the HTML format for reviewing and verifying data prior to submission to the state. Use the State Format for submitting the data to the Department of Education. |
| Report Protected Identities | When marked, last name, first name, middle name, suffix, and gender information reports from the Protected Identity Information section on the Identities editor, when the fields are populated. |
| Report All Addresses | When marked, address fields included in the report (Address 1, Address 2, City, State, Zip) report for each student record. When not marked, address information only reports for Special Education and CTE students only. |
| Enrollment Detail | When marked, every enrollment for students within the entered report date range reports. |
| Ad hoc Filter | Select an existing ad hoc filter from which to report students. Only those students included in the Student Data Type filter and who meet the reporting population are included in the extract. |
| Select Grades | Select which grade levels to include on the report. |
| Calendars | At least one calendar must be selected when generating a PIMS extract. Calendars can be selected by the Active Year, by School or by Year. When a calendar is chosen in the Campus toolbar, that calendar is automatically be selected. |

| Field | Description |
|--------------------------|--|
| Report Generation | To generate the report immediately, use the Generate Extract option. To choose when the report generates, use the Submit to Batch option. Submit to Batch is useful when generating the report for several calendars or for larger amounts of data being reported. See the Batch Queue article for more information. |

Generate the Student Template

See the [PIMS Reporting](#) article for descriptions of the Report Editor fields.

1. Select **Student Template** from the **Extract Type** from the dropdown list.
2. Enter the **Start Date** of the extract in *mmddyy* format or use the calendar icon to select a date.
3. Enter the **Effective Date** of the extract in *mmddyy* format or use the calendar icon to select a date.
4. Select the **Format** of the extract.
5. If desired, mark the **Report Protected Identities** checkbox.
6. If desired, mark the **Report All Addresses** checkbox.
7. If desired, mark the **Enrollment Detail** checkbox.
8. If desired, select an **Ad hoc Filter**.
9. Select a **Grade** level for the extract.
10. Select the appropriate **Calendar(s)** from which to include data on the extract.
11. Click the **Generate Extract** button or the **Submit to Batch** button, when available. The extract displays in the selected format.
