Session Selection

For each responsive schedule available (created in the [Responsive Schedule Designer](#)), a set of responsive offerings displays. These offerings were created by the teachers during the designated Teacher Offering Window.

If no sessions are available for selection in the dropdown list, verify a schedule has been created.

Field	Description
Teacher	<p>Indicates which teacher has created the offering or which teacher is assigned to the offering.</p> <p>The column can be sorted to display the column in either alphabetical ascending order (A-Z by last name, default sort) or in alphabetical descending order (Z-A by last name) by clicking the arrows next to the column name.</p> <p>Use the Search field at the top of the column to locate offerings assigned to specific teachers and narrow the list of offerings to only show matching results.</p>

Schedule and Unschedule Responsive Offerings

To schedule an offering, select the checkbox for that row and click the **Schedule** button. More than one offering can be selected at a time. Once an offering is scheduled, its Status changes to Scheduled, it displays in green, and a section number is assigned to it.

The screenshot shows the 'Responsive Section Builder' interface. At the top, there are dropdown menus for 'Responsive Day Session' (set to 'Resp Sched 0994; Thu 03/09/2017') and 'Session to copy offerings from'. Below these are buttons for 'Schedule', 'Unschedule', 'Add Offering', 'Copy Offerings', and 'Delete Offerings'. The 'Schedule' button is highlighted with a red box. The main table, titled 'Responsive Section Offerings', has columns for 'Select All', 'Teacher', 'Room', 'Course', 'Offering Name', 'Status', 'Teacher/Student Requests', 'Seats', and 'Action'. One row is visible with the following data: Teacher: Staff, Andrew; Room: 122; Course: RE0995: 0995; Offering Name: Test Retake Chapter 1; Status: Unscheduled; Teacher/Student Requests: 2/0; Seats: 2/7. A 'Manage' button is visible in the Action column for this row.

To unschedule an offering, select the checkbox for that row and click the **Unschedule** button. More than one offering can be selected at a time. A warning message displays indicating the course section will be deleted and any associated data (attendance, roster, grade book scores, report card grades) is also deleted. Once an offering is unscheduled, its Status changes to Unscheduled, it no longer displays in green, and the section number is removed.

Add an Offering

Use the **Add Offering** button to create offerings for the selected responsive session. 1. Click the **Add Offering** button. A **New Teacher Offering** editor displays.
2. Select the appropriate **Teacher** from the dropdown list.
3. Select the appropriate **Course** from the dropdown list.
4. Enter an **Offering Name**.
5. Enter a **Description** of the offering.
6. Select a **Room** from the dropdown list.
7. Enter the total **Maximum Students**.
8. Click the **Add** button when finished.

The offering is then listed in the available offerings and students can request to attend the offering through the Portal, and other staff can add students to the offering.

Manage Offerings

Use the **Manage** button to review and modify any offerings that have already been created. This can be done for both scheduled and unscheduled offerings.

Changes can be made to the offering itself or to any student requests. Additional students can also be added from here.

- Modify the **Offering Details: Offering Name** and **Offering Description**, the **Room** number and **Maximum Students**.
 - All of these, except for the Offering Description, are required to save. The description does display for students when they are requesting offerings on the Portal, and should be populated for clarity.
- Modify any **Current Requests** entered by staff. Enter a **Reason** the student was requested or **Delete** the student from the offering.

Add additional students to the offering:

1. Enter at least two characters of either the student's first name or last name and click the Search button. Matching results display.
2. Select the appropriate student from the results. Their name is added to the list of **Requests**, and the person who added them is listed in the **Requested By** column.
3. Enter the **Reason** for requesting the student.
4. **Save** the offering when finished.

If the offering is no longer needed for the day, use the Delete Offering button to remove that offering from the list of options. A warning message displays, indicating any associated data with that offering is also deleted.

Click the values in the **Seat** column to quickly review the offering and the roster of students for that offering. No edits can be made from this Student List view. Use the [Manage](#) feature to modify offering information. Click the Close button to close the **Student List** view.
