

Staff Data Extract

Last Modified on 12/14/2025 8:45 pm CST

Tool Search: Staff Data Extract

The Staff Data Extract extract provides users with a way to export existing staff information into CSV, XML or HTML format.

This functionality may not be available to all users. Localized information is available for the following states:

- [South Dakota](#)

Staff Data Extract ☆

Census > Reports > Staff Data Extract

Staff Data Extract

Select an option under "Extract Type" to specify what type of data you would like extracted. Specify the format type for the output under the Format dropdown.

Generate Extract

See the [Census Reports Tool Rights](#) article for information about rights needed to use this tool.

The available Extract Types vary for each state. Following is a list of Extract Types and which State Editions/District Editions apply to the selected types.

Extract Types	State
Staff Courses	Kentucky (State Edition Only) South Dakota Montana (State Edition Only) BIE

Extract Types	State
Staff Credentials	Kentucky (State Edition Only) South Dakota Montana (State Edition Only) BIE

The data elements included in the selected Extract Types also vary for each state. For specific information, see the Localization section.

Extract Options

The following information provides instructions on importing a file and selecting the appropriate Work to Perform option.

1. Select the **Extract Type** from the dropdown list.
2. Select the appropriate **Format** for the extract.
3. Click the **Generate Extract** button. The extract will display in a new window and/or application in the selected format. Follow any prompts to view/download the file.
