Tool Search: Staff & Staff Snapshot_Template

This tool extracts data to complete the Staff Template and Staff Snapshot extracts. The Staff Template reports a current view of the staff population and the Staff Snapshot Template reports a point-in-time view of the staff population. The Staff Snapshot Template can be used to track changes over time since there is one record for each staff member for each snapshot date.

Staff Template & Staff Snapshot Template

This tool will extract data to complete the Staff and Staff Snapshot extracts. Staff reported in the Staff Template must have an active District Employment on or between the Submission Start Date and Submission End Date to report. Staff reported in the Staff Snapshot Template must have an active District Employment on the Snapshot Date to report. Field 35: STAFF START DATE OF CURRENT SCHOOL YEAR, reports the staff's District Employment Start Date or the Start Date of School Year as selected on the extract editor; the most recent date reports.

Staff Template & Staff Snapshot Template

Extract Logic

- To report, staff must meet the following requirements:
 - Have an active District Employment record on the Snapshot Date selected on the extract editor. (Applies to Staff Snapshot and the Open Yr Round Submission Schedule of the Staff Template Only)
 - Have an active District Employment record one day on/between the Submission Start Date and Submission End Date selected on the extract editor. (Applies to 40D, 80D, 120D, EOY, Summer, and K5P Submission Schedules of the Staff Template Only)
- The primary assignment record is determined by the greatest FTE of all assignment records in the given school and calendar year. To determine the greatest FTE, Campus uses the following logic:

- Campus compares all Employment assignment records where the
 - Employment Assignment Start Date is null or is on or before the Snapshot Date selected on the extract editor (Staff Snapshot Only) or the Submission End Date selected on the extract editor (Staff Template Only) AND
 - the assignment is selected from the max FTE or 0 (if there is no employment assignment FTE value)
- If there are two Max FTE values that are the same, Campus reports the FTE with the minimum school ID.
- A record reports for staff with an active district employment record but who do not have an active district assignment; however, data collected on district assignment may report as null in that record.
- Only one record reports per reportable staff regardless of how many District Employment records were/are active in the reporting range.
