

# HB (Homebound/Hospitalization) (Indiana)

Last Modified on 07/11/2024 1:53 pm CDT

This report is no longer supported or updated by Infinite Campus. The flat file reports will remain available in the Infinite Campus system until the 2023-2024 school year. Schools can continue to use the flat file reports as needed until then, but Infinite Campus no longer provides any support.

[Data Exchange](#) was designated as the sole source of truth for all data for the purposes of required reports beginning with the 2021-2022 school year. Please refer to the [Indiana Ed-Fi](#) documentation for additional information about current state reporting practices / procedures using the Data Exchange Ed-Fi System.

## Report Logic

- Reports students with that are flagged for Hospitalization/Homebound or in a Hospitalization/Homebound Program where the start and end dates overlap the reporting period. A Homebound/Hospitalization Program is a program with the code **HB** and the State Reported checkbox is marked.
- Students do not report if any of the following conditions exist:
  - The student's enrollment **State Exclude** field is checked.
  - Students enrolled in the grade level where the Grade Level's **Exclude from state reporting** field is checked.
  - Any students enrolled in a school where the Calendar's **Exclude** field is checked.

## Report Editor Details

Field	Description
<b>Year</b>	The school year from which data is pulled for the report.
<b>Start Date</b>	The earliest date from which data is pulled for the report.
<b>End Date</b>	The latest date from which data is pulled for the report.
<b>Ad Hoc Filter</b>	Select an Ad hoc Filter to limit the information reported to students within the selected filter.
<b>Format</b>	The format in which the report generates. Options include HTML, Comma Separated and XML.
<b>Select School(s)</b>	The school(s) from which data is pulled for the report.
<b>Generate Extract Submit to Batch</b>	Users can submit the report request to the batch queue by clicking <b>Submit to Batch</b> instead of <b>Generate Extract</b> . This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the <a href="#">Batch Queue</a> article.
