

Report Logic

All enrollments are included in a regular school calendar, except the following:

- Enrollments marked as State Exclude, No Show or WISE Exclude
- Enrollments in grade levels marked as State Exclude
- Enrollments in calendars marked as State Exclude
- Summer School enrollments

Students who have primary enrollments and attendance data in the selected calendar report. Courses marked as Attendance are included, but periods marked as non-instructional are not included.

For the Summary report, a record reports for each applicable enrollment; for the detail report, a record for each instructional, school, attendance date captured by the student's enrollment reports.

Report Editor

Field	Description
Report Type	Indicates which report generates - the Summary or the Detail.
File Format	The extract can be generated in either Comma Separated (CSV) or HTML.
Start Date	Indicates the first date used when calculating attendance. Dates can be entered in <i>mmddyy</i> format, or use the calendar icon to select a date.
End Date	Indicates the last date used when calculating attendance. Dates can be entered in <i>mmddyy</i> format, or use the calendar icon to select a date.
Student Selection	<p>Select students to include on the report by choosing either a Grade level of enrollment for the students or an Ad hoc Filter.</p> <ul style="list-style-type: none"> • To include students in all grade levels, choose All Students in the Grade Level options. • Selecting an existing ad hoc filter reports only those students or courses included in those filters, if they meet the reporting requirements of the report. <p>These options only display when the Extract Type is set to Student.</p>
Calendar Selection	<p>At least one calendar needs to be selected in order to generate the extract. Multiple calendars can be chosen by using the CTRL and SHIFT keys. It is advised that not all calendars be chosen at once due to the amount of data that is returned in the extracts.</p> <p>Calendars can be selected by active year, by school or by year.</p> <p>This option only displays when the Extract Type is set to Student.</p>
Report Generation	Use the Generate Extract button to immediately display the results of the selected extract type/period. For a larger data set, use the Submit to Batch button. This allows the selection of a specific time in which the extract generates (after school hours). See the Batch Queue article for more information.

Generate the Attendance Audit Report

1. Select the desired **Report Type**.
2. Select the desired **File Format**.
3. Enter the appropriate **Start Date** and **End Date**.

- Select students to include by choosing **Grade Levels** or an **Ad hoc Filter**.
- Select the appropriate **Calendars**.
- Click the **Generate Extract** or **Submit to Batch**. The report generates in the selected format.
