The Massachusetts EPIMS Staff Roster Extract reports staff member information, including demographic data and work assignment information found on the <u>District Employment</u> tool. This information allows Massachusetts to comply fully with the No Child Left Behind Act by accurately reporting on highly qualified teachers. EPIMS data is also used to analyze the educator workforce over time to identify high need areas, evaluate current educational practices and programs and assist districts with recruiting efforts.

Generating the Extract

- 1. Select Staff Roster Extract as the Extract Type.
- 2. Enter an **Effective Date** in *mmddyyyy* format or by clicking the calendar icon and selecting a date. This date will limit the records reported to District Employment records active on that date. The default entry is the current date.
- 3. Indicate the **Format** in which the report should generate, HTML for data review and verification or State Format (CSV) for submission to the state.
- 4. Indicate if the **Header** should be left off the report.
- 5. Select an Ad hoc Filter to limit records reported.
- 6. Select which **Calendar(s)** should be included in the report.
- 7. Click Generate Extract to view the report in the selected format or Submit to Batch to

schedule when the report will generate.

Users have the option of submitting a Staff Roster report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the <u>Batch Queue</u> article.
