Student Transportation (Oklahoma)

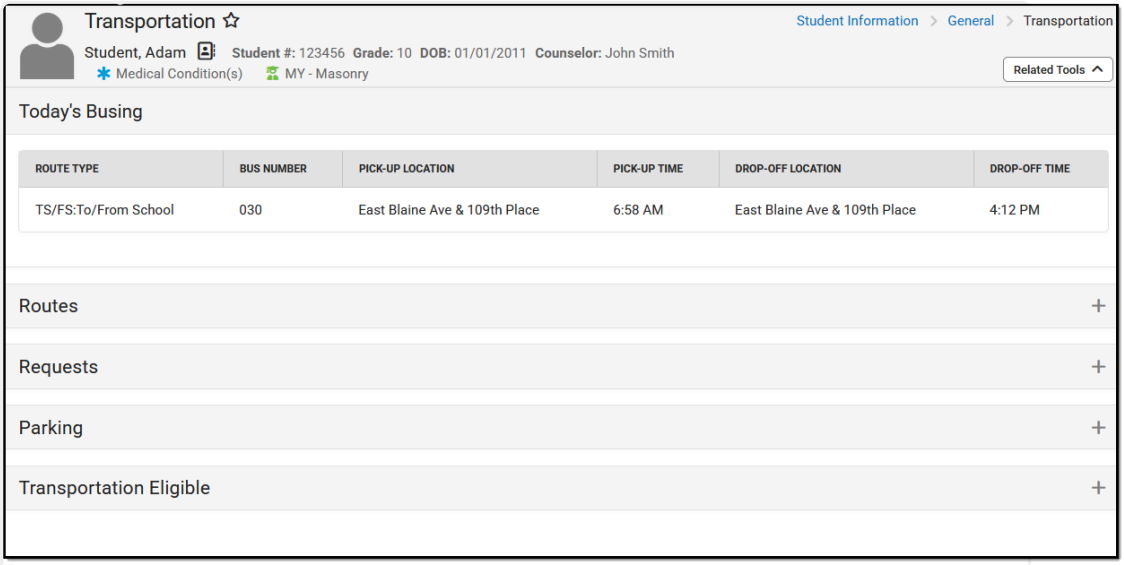
Last Modified on 01/07/2026 8:09 am CST

Tool Search: Transportation

This article only pertains to Districts that have enabled the new Transportation 2.0 tool. Once the Transporation 2.0 tool has been turned on, it can not be reverted back.

The student Transportation tool provides a space for users to record a student's transportation information. From here, users are able to define a student's bus stop(s), bus(es) used during the school day, typical arrival/departure times and the amount of miles transported per day.

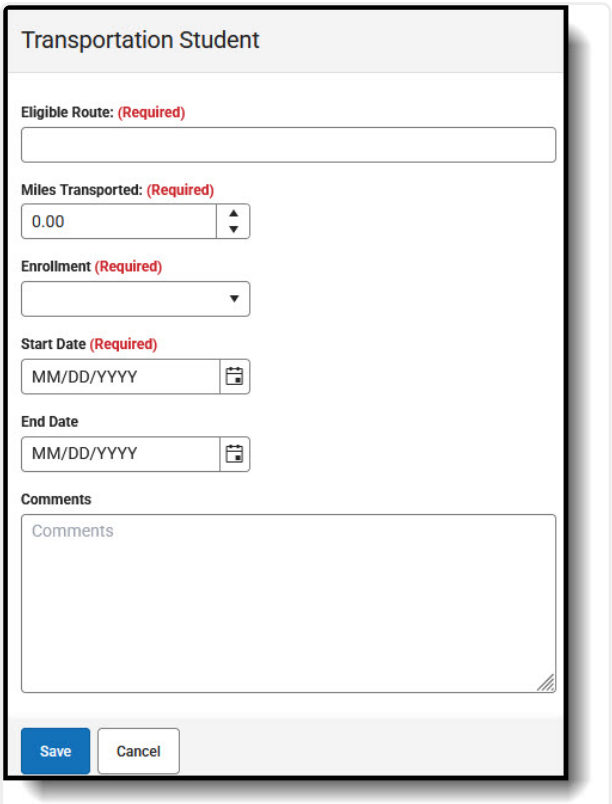
The information below contains fields specific to Oklahoma. See the core Student Transportation article for information on entering routes, requests, and parking details.



Student Transportation

State Reporting

The following describes information in the State Reporting section of the Transportation tool for Oklahoma.



Transporation

Field	Decription
Eligible Route *(Required)*	The route for the student.
Miles Transported *(Required)*	Number of miles the student is transported.
Enrollment *(Required)*	The enrollment the Transportation record is associated with.
Start date *(Required)*	Start date of the transportation code card.
End Date	End date of the transportation code card.
Comments	Any comments about the Transportation
