

Transportation 2.0 (Minnesota)

Last Modified on 12/02/2025 11:40 am CST

[State Reporting Transportation Fields for Minnesota](#)

Tool Search: Transportation

This article only pertains to Districts that have enabled the new Transportation 2.0 tool. Once the Transportation 2.0 tool has been turned on, it can not be reverted back.

The Transportation tool allows districts to show a student's transportation information for the day, record the bus routes students are assigned to and from school, create transportation requests, and record information for vehicles students drive to and from school. Additional Route Types can be added via the [Core Attribute/Dictionary](#) and additional custom fields can be added to Routes, Requests, and Parking via the [Custom Attribute/Dictionary](#).

See the core [Transportation 2.0](#) article for information about the core features of the Transportation 2.0 tool.

State Reporting Transportation Fields

Adding State Reporting Information

These instructions outline the required fields. Complete any of the additional fields as needed by the district.

1. Under the State Reporting section, click **New**. The Transportation Student panel will appear.
2. Select the **Transportation Category** for the student.
3. Select the **Transporting District**.
4. Select the **Enrollment** that the Transportation record pertains to.
5. Enter the **Start Date** for the Transportation record.
6. Click **Save**.
