

Accommodations Tool (Missouri)

Last Modified on 10/21/2024 8:20 am CDT

This tool is not compatible with any Plan print format after 2013.

Tool Search: Accommodations

The Accommodation tool is used to add Accommodations options for a student's IEP on the Accommodations editor. Options available in the dropdown are prefilled, but this tool adds additional options.

The screenshot shows two side-by-side panels. The left panel, titled 'PlanAccommodation Editor', has a search bar with 'Name' and a list of 'Additional Time' options. The right panel, titled 'PlanAccommodation Detail', contains the following fields: a text input for 'Name' with the value 'Additional Time'; a dropdown for 'Form D Accommodation Area' with 'State Accommodations: Timing' selected; a dropdown for 'Accommodation Type' with 'State Accommodations' selected; a text input for 'State Code' with the value '0000'; a text area for 'Description'; and a checked checkbox for 'Active'.

Accommodations Tool

1. Enter a **Name** for the plan accommodation.
2. Select the accommodation area from the **Form D Accommodation Area** dropdown,
3. Select an **Accommodation Type** from the dropdown.
4. Enter a **State Code**.
5. Enter a **Description**.
6. Mark the **Active** checkbox.
7. Click **Save**. The new Accommodation displays in the Accommodation dropdown on the Accommodations editor of the IEP.
