## Tool Search: Grading Changes

The Grading Changes Not Pushed report lists changes to grading setup that could not be pushed from the course master to the course for various reasons. These reasons include:

- Assignments and scores aligned to tasks, standards, or grade calc options that were removed or marked as post-only at the course master level.
- Differences in composite grading setup that would affect scores.

**Grading Changes Not Pushed Report**

This report lists Categories, Grading Tasks, and Standards that had assignments, scores, or grade calc options aligned when they were removed or marked post-only at the Course Master level. It also includes Course Master composites that exist on a different parent Grading Task or Standard in the Course as well as Course Master parent/child composite combinations that exist in the Course. They cannot be removed or updated at the Course/Section level. The report will run against all school calendars that pertain to the selected Course Master and reports based on the School Year selected in the toolbar.
