Tool Search: MOSIS Extracts

Students who take the Personal Finance Assessment for Summer:

- Students who are taking a course in which the Personal Finance competencies are embedded are required to take the assessment.
- Students who are attempting to "test out" are required to take the assessment.
- For students who are enrolled in a stand-alone Personal Finance course, the assessment is optional.

Report Logic

A record for a student/course/section is returned when:

- The student is assigned to the state-mapped grade level selected on the Extract editor.
- The student is enrolled in the calendar selected in the extract editor.
- The student is scheduled into a course section where the value selected in the Assessment Type dropdown list on the Section editor is the selection (Spring, Fall, Summer) in the testing window field on the extract editor.

A record will not be included when the student, course, calendar and/or grade level is marked as state exclude.

Report Editor

Field	Description
Extract Type	Indicates the type of MOSIS Extract being generated. Choose Pre-code File .
Report Protected Identities	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.
Report State Excluded Student	When marked, students who meet the report population requirements but their enrollment record is marked as State Exclude report along with all other records. When not marked, students marked as State Exclude on their enrollment record are excluded from the report.
Effective Date	Entered date is used to return students actively enrolled as of that date.
Ad hoc Filter	Selection of a filter limits the set of students to only those included in the filter.
Assessment Type	Determines the pre-code file that generates. Choose PRSFNCSUM: PRSFNC Summer
Select Grades	Indicates which grade levels are included in the extract. All grade levels can be selected, but the Personal Finance Summer extract only reports data for students in grades 9-12.
Format	Determines the program used to display the report. State Format is in CSV - use this option when submitting data to the state. Use the other options or data review and testing - Tab Delimited, HTML, or XML.
Calendar Selection	Indicates from which enrollments are included in the extract. At least one calendar must be selected to generate the report. Calendars can be selected by active year, school name or year.

Field	Description
Report Generation	The report can be generated immediately using the Generate Extract button. When there is a larger amount of data chosen (several calendars, large date range, etc.), use the Submit to Batch button, which allows the user to choose when the report is generated. See the <u>Batch Queue</u> article for more information.

Generation Steps

- 1. Select the **Pre-code File** option from the **Extract Type** dropdown list.
- 2. Mark the **Report Protected Identities** checkbox, if desired.
- 3. Mark the **Report State Excluded Students** checkbox, if desired.
- 4. Enter the **Effective Date** in *mmddyy* format or by clicking the calendar icon and selecting a date, if applicable.
- 5. Select an **Ad hoc Filter**, if applicable.
- 6. Select the Assessment Type as PRSFNCSUM: PRSFNC SUMMER from the dropdown list.
- 7. Select which **Grades** to include in the report.
- 8. Select the desired Format of the extract. For submission to MOSIS, select the State Format (CSV). Select any of the other formats for data review prior to submission.
- 9. Select which Calendar(s) to include report within the extract. Selecting multiple calendars may impact extract generation times and overall Campus performance.
- 10. Click the Generate Extract button or the Submit to Batch button. The extract will appear in a separate window in the designated format.
