Block Schedule	<p>For students who have a Partial Enrollment in a Block Schedule setting, the following calculation is used:</p> <ul style="list-style-type: none"> If a student is enrolled in 80 minutes or more of instructional AND attendance periods, total attendance (the number of minutes the student attended on that day) is divided by 300 to get their daily attendance number. This number is rounded to the nearest one-hundredth of a decimal. If a student attended 160 minutes, the calculation would be $160/300 = .53$. If a student is scheduled for 79 minutes, the student would report 0 days present and 0 days absent. 																																								

Schedule	Calculation/Description
Regular Schedule	<p>For students who have a Partial Enrollment in a Regular Schedule setting, the following calculation is used:</p> <ul style="list-style-type: none"> • Students in a regular period schedule must receive 1/6 of a day of attendance for every 40 minutes of instruction they attend. • This number must be rounded to the nearest one-hundredth of a decimal. • If a student is scheduled for 160 minutes, the calculation would be $(160/40)/6 = 0.67$ (rounded from .666). • If a student is scheduled for 79 minutes, the student would report 0 days present and 0 days absent.
Absences	
<ul style="list-style-type: none"> • Excused and Unexcused absences are determined each day. • If Claimable Day is less than 1, the total difference in the Excused or Unexcused data element reports, whichever has the most total minutes. <ul style="list-style-type: none"> ◦ Partial Day Pre-K and K can never be absent for more than 0.5 day. • If Excused Absence minutes = Unexcused Absence minutes in a day, report the last Excuse of the day. • If a student is scheduled for 300 minutes with 100 minutes of Excused Absences and 50 minutes of Unexcused Absences, the student would report 0.5 Days Present, 0.5 Days Excused Absences, and 0.0 Days Unexcused Absences.
