Tool Search: Percent Tier

The **Percent Tier** interprets student performance based on percentage received in a particular course as opposed to the actual grade mark. This can simplify the interpretation of a student's grades for districts using an intricate grading scale, such as a 100-point scale.

Only students with an [Early Warning Curriculum score](#) between 50 and 100 are included in the chart.

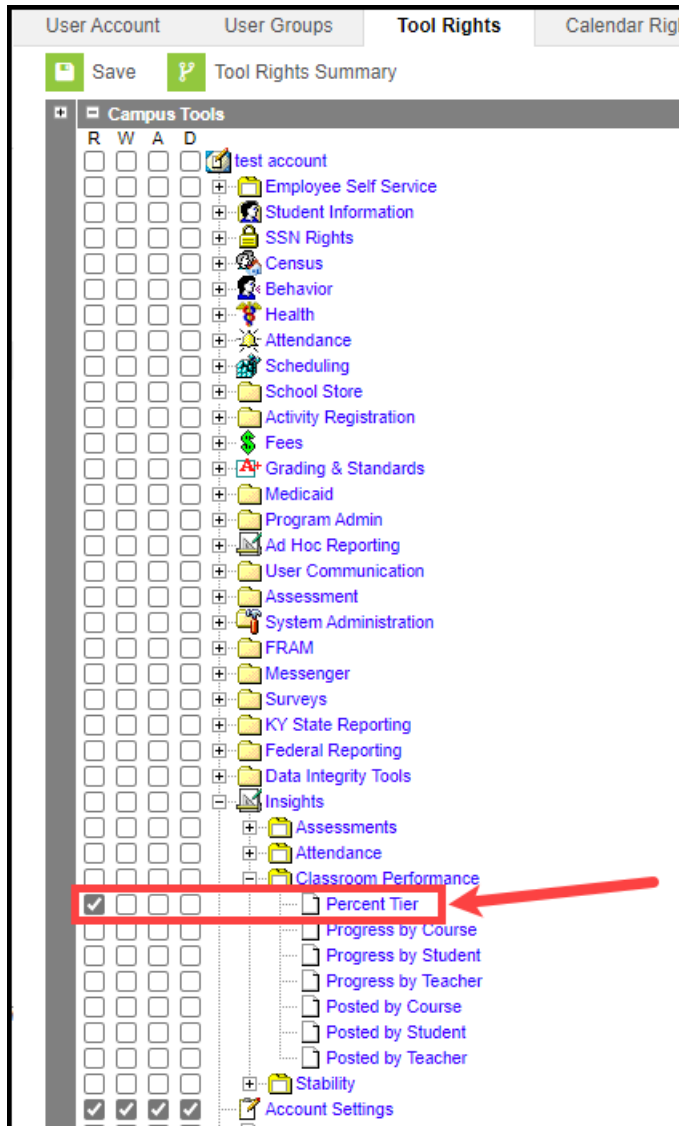

This report is only available for users in districts who have purchased the Campus Analytics Suite.

Tool and Calendar Rights

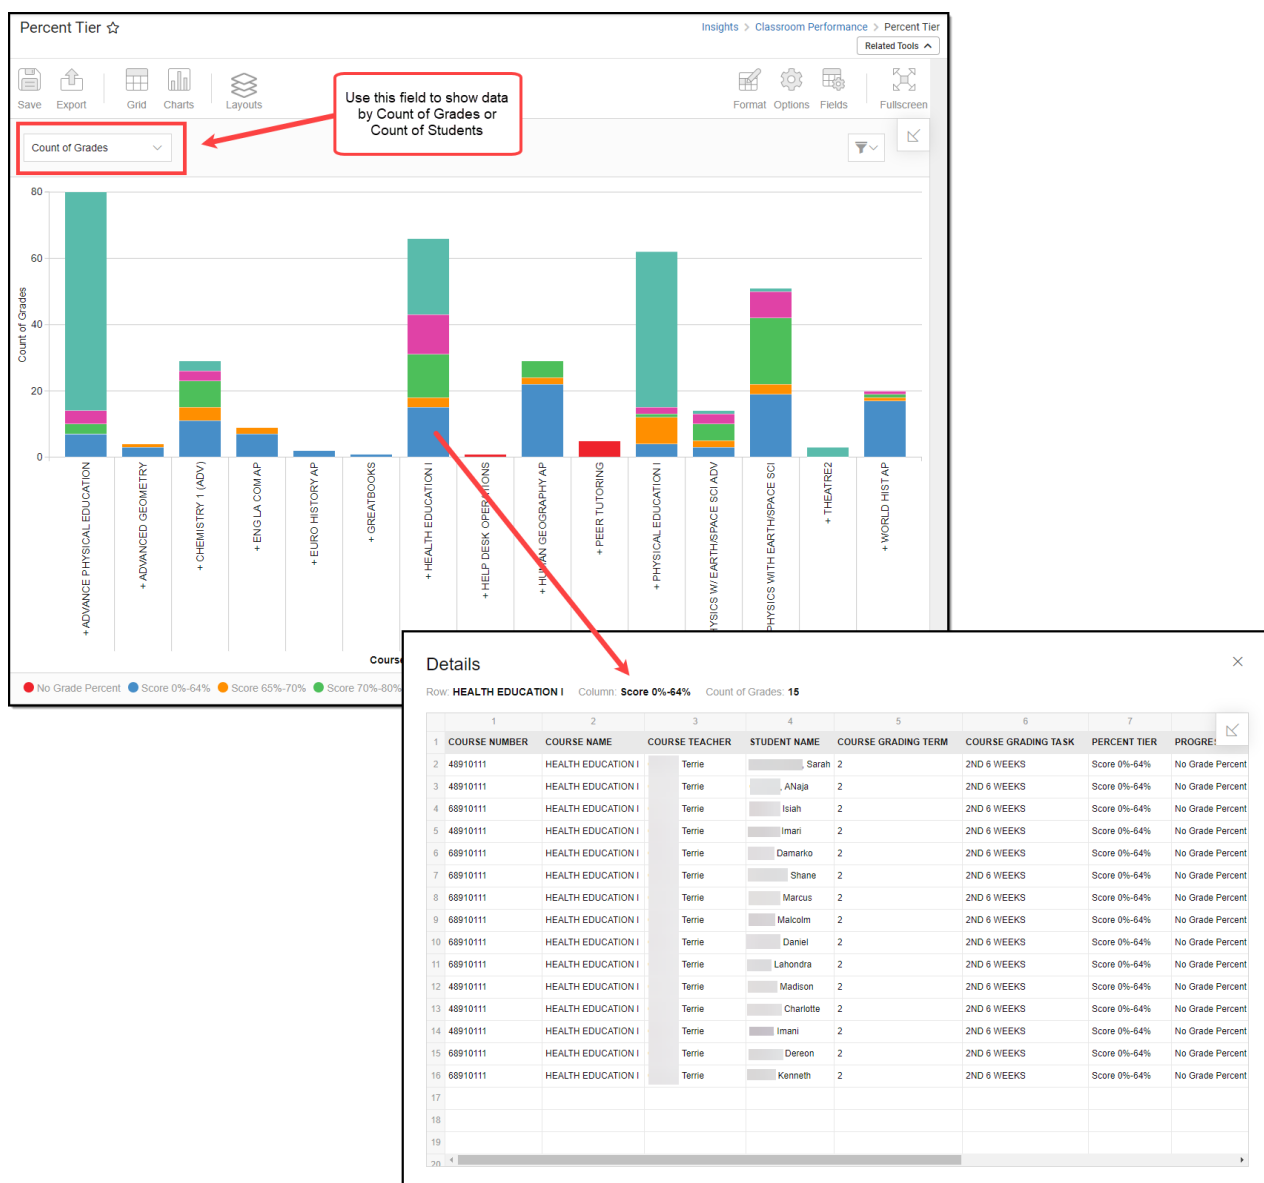

PATH: *System Administration > User Security > Users > Tool Rights, Calendar Rights*

You must have at least **R(ead)** tool rights to **Percent Tier** in order to generate this report. You must also have calendar rights assigned for any calendar(s) reporting data.

Understanding the Graph

Each bar in the graph represents student performance for a specific course, where each color-coded section of the bar indicates a count of course grades or a count of students who received a specific score in the course. Double-clicking a colored section of a bar in the bar graph will show you a sub-report detailing all of the data which makes up that section.

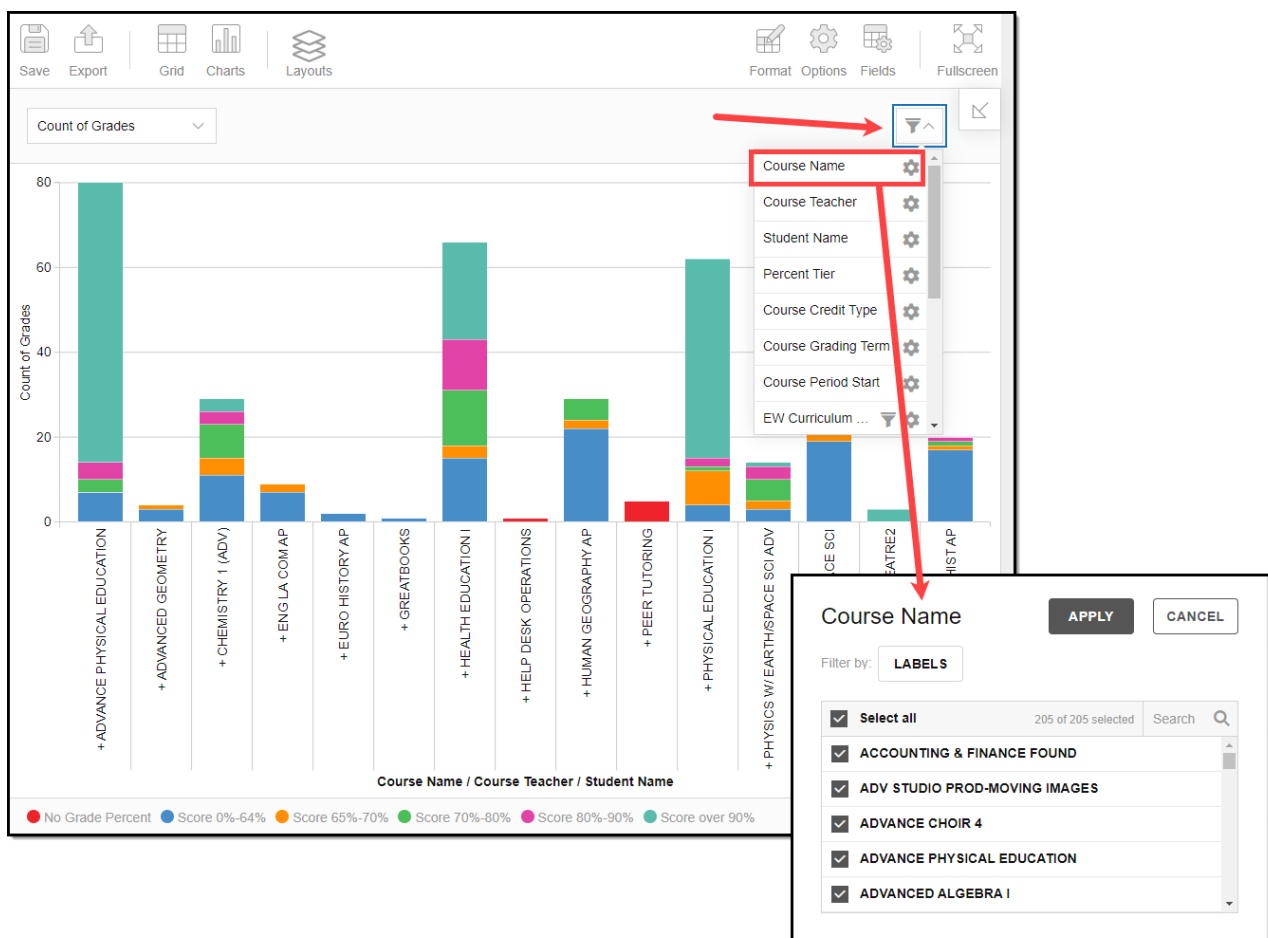

Use the table below for help in understanding each sub-report column:

Column	Description
Course Number	The course number of the selected bar.
Course Name	The course name of the selected bar
Course Teacher	The name of the teacher for the course selected.
Student Name	The name of the student who received the score associated with the section of bar selected.
Course Grading Term	The reporting course grading term.
Course Grading Task	The reporting course grading task.

Column	Description
Percent Tier	The grading percent tier for the section of the bar selected. For example, a score over 90%, meaning all grades with a score of 90% or higher.
Progress Percent	Indicates the student's percent of progress in the course.
Progress Score	Indicates the student's progress score for the course.
Posted Percent	The student's posted grade percentage for the course.
Posted Score	The student's posted grade score for the course.
Student Person ID	The student's person ID.

You can remove and filter any data which makes up the bar graph by click the  button, selecting the type of data you wish to filter and unchecking data you wish to remove from the graph.

Additional Report Options

The table below directs you towards additional information about all of the other on-screen

options.

Option	Description
Layouts  Layouts	The report layout can be modified to display data summarized by teacher, course, or student by clicking the Layouts button and selecting an option.
Grid and Chart  Grid Charts	Report data can be viewed in a grid or other visualization charts. See this article for more information.
Format  Format	Format options allow you to modify how cells represent data within the report. See this article for more information.
Options  Options	The Options menu gives you layout options for how you would like the table to be displayed (Layout), how grand totals are display in the table (Grade Totals), and how subtotals should be displayed (Subtotals). See this article for more information.
Export  Export	The report can be exported to a number of different formats by clicking the Export icon and selecting an option. See this article for more information.
Fields  Fields	The Fields icon allows you to modify the order of the fields in the report, add or remove fields from the report table, and modify which fields are used in rows or columns. See this article for more information.
