Tool Search: Daily Attendance Report

The **Daily Attendance Report** displays daily attendance data within a powerful pivot table, allowing you to sort, count, filter, and display the data in useful graphs and charts.

This report is only available for users in districts who have purchased the Campus Analytics Suite.

Daily Attendance Report ☆

Reporting > Ad Hoc Reporting > Daily Attendance Report

Daily Attendance Report

The report will appear in spreadsheet format. Information on the tables can be exported into CSV, Excel, HTML, PDF or as an image.

Note the following:

- Students marked as No Show are not included.
- Students marked as State Exclude are included.

Which calendar(s) would you like to include in the report?

For more information about Tool Rights and how they function, see the [Tool Rights](#) article.

Understand the Report

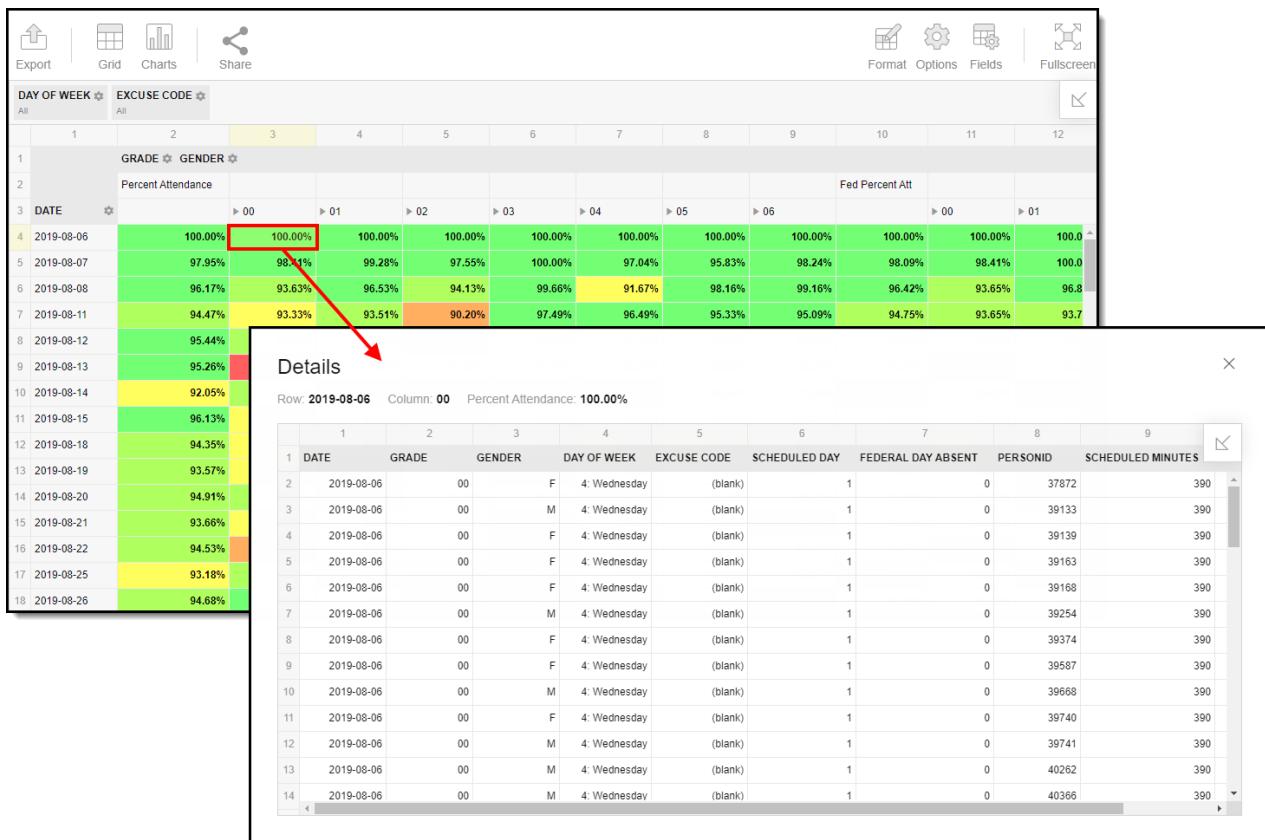

Once the report is generated, a pivot table grid displays and uses conditional formatting to apply a color gradient to each cell based on the attendance value. The report shows the attendance percentage and federal attendance percentage for each grade per day, with colors indicating how close or far away the percentage is from 100%. This color gradient also allows you to easily identify which grades per date have a lower percentage and may require additional analysis. Since the

report logic relies on the [Attendance Aggregation Day](#) tables, the report does not reflect current day attendance and lags by 1 day.

DAY OF WEEK		EXCUSE CODE		Percent Attendance													Fed Percent Att		
All		All		1	2	3	4	5	6	7	8	9	10	11	12	13	00	01	02

Display Report Data in a Chart/Graph

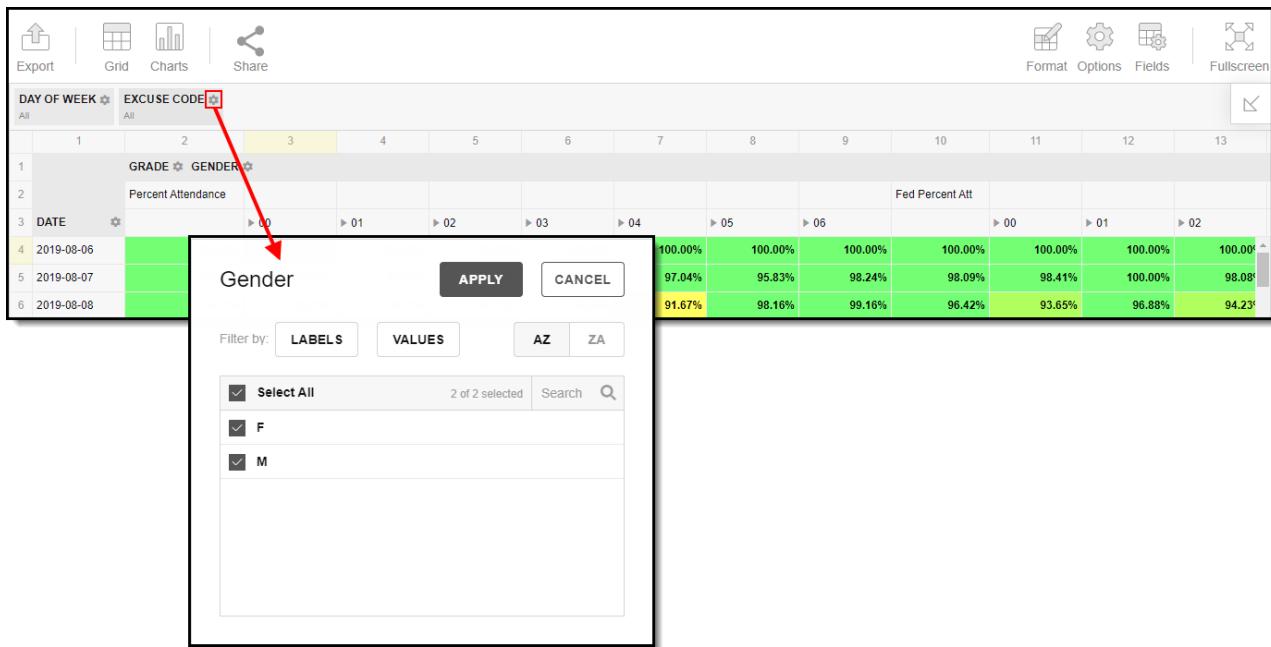

Report data can be visually displayed in a number of charts. To create a chart, click the **Charts** icon and select a chart type.

See the links below for more information about each chart option.

- [Column](#)
- [Bar](#)
- [Line](#)
- [Scatter](#)
- [Pie](#)
- [Bar Stack](#)
- [Bar Line](#)

Filter Dimensions and Modify Report Options

You can filter a report dimension by clicking the gear icon  next to the dimension header. From here you can filter dimension data by label or value as well as modify the dimension sort order. For more information about filtering dimensions, see the [Pivot Designer](#) article.

The screenshot shows a Pivot Table interface. At the top, there are navigation icons: Export, Grid, Charts, and Share. On the right, there are Format, Options, Fields, and Fullscreen icons. The main area shows a grid of data with columns for 'DATE', 'GRADE', 'GENDER', and 'EXCUSE CODE'. The 'EXCUSE CODE' column has a gear icon next to it, which is highlighted with a red box and has a red arrow pointing to a 'Gender' filter dialog box. The dialog box has tabs for 'LABELS' (selected) and 'VALUES'. Under 'LABELS', 'Select All' is checked, and 'F' and 'M' are also checked. Under 'VALUES', it says '2 of 2 selected'. The main grid shows data like 'Percent Attendance' and 'Fed Percent Att' for different dates and gender groups. The data grid has a color scheme where green cells represent higher values and yellow/orange cells represent lower values.

Selecting the **Fields** icon allows you to modify the order of the fields in the pivot, add or remove fields from the pivot table, and modify which fields are used in rows or columns.

You can also modify or insert specific calculations to be used in the pivot table by clicking the **Add calculated value** button. When adding calculated values, users can use aggregation key words to produce aggregates that aren't available when selecting the sigma dropdown.

For more information about modifying fields and adding calculated values, see the [Pivot Designer](#) article.

The screenshot shows a pivot table with various filters and data columns. A modal dialog titled 'Fields' is open, allowing users to drag and drop fields to arrange the table. The 'Fields' button in the main toolbar is highlighted with a red box and an arrow pointing to it from the dialog.

Format and Layout Options

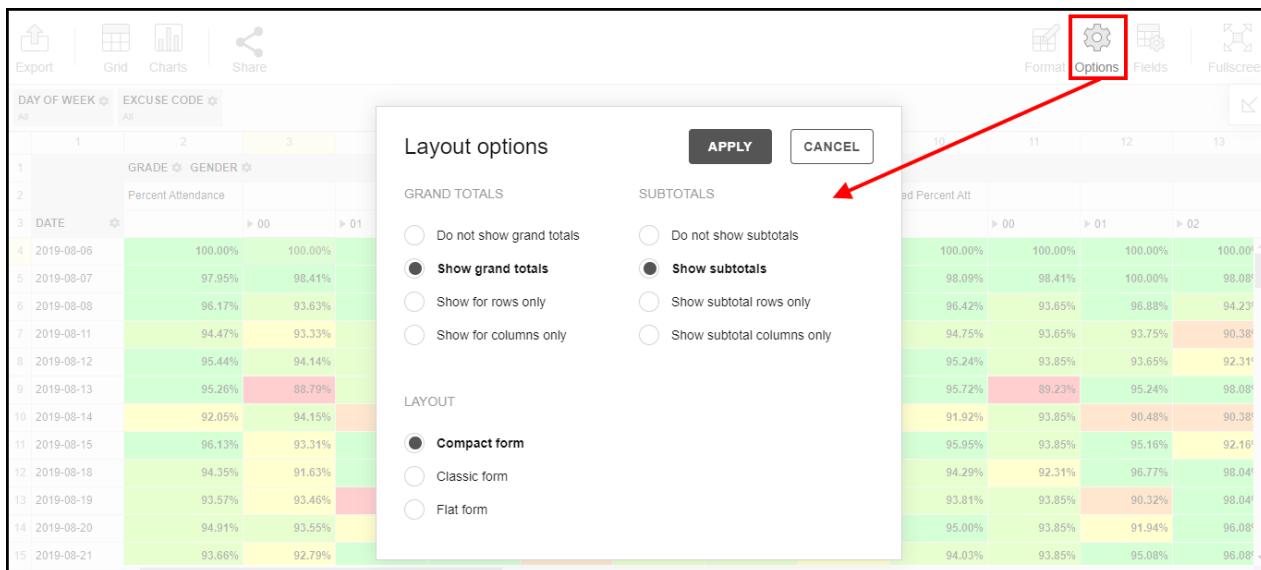

Format options allow you to modify how cells represent data within the pivot table. To access format options, click the **Format** button and select one of the following options:

- **Format cells** - This editor allows you to control how text within the cell is aligned, what value is reported in the cells, how decimals are used, the current symbol used, any default null value you want the table to display, and whether or not you want data displayed as a percentage.
- **Conditional formatting** - This editor allows you to set cell value thresholds as to whether or not the data is reported for each cell (less than or greater than a certain value) as well as modify the cell text size and font.

The screenshot shows a pivot table with various filters and data columns. Two modal dialogs are open: 'Format cells' and 'Conditional formatting'. The 'Format' button in the main toolbar is highlighted with a red box and an arrow pointing to it from the 'Format cells' dialog. Another arrow points from the 'Format cells' dialog to the 'Conditional formatting' dialog, which is also open.

The **Options** menu gives you layout options for how you would like the table to be displayed (Layout), how grand totals are display in the table (Grand Totals), and how subtotals should be displayed (Subtotals).

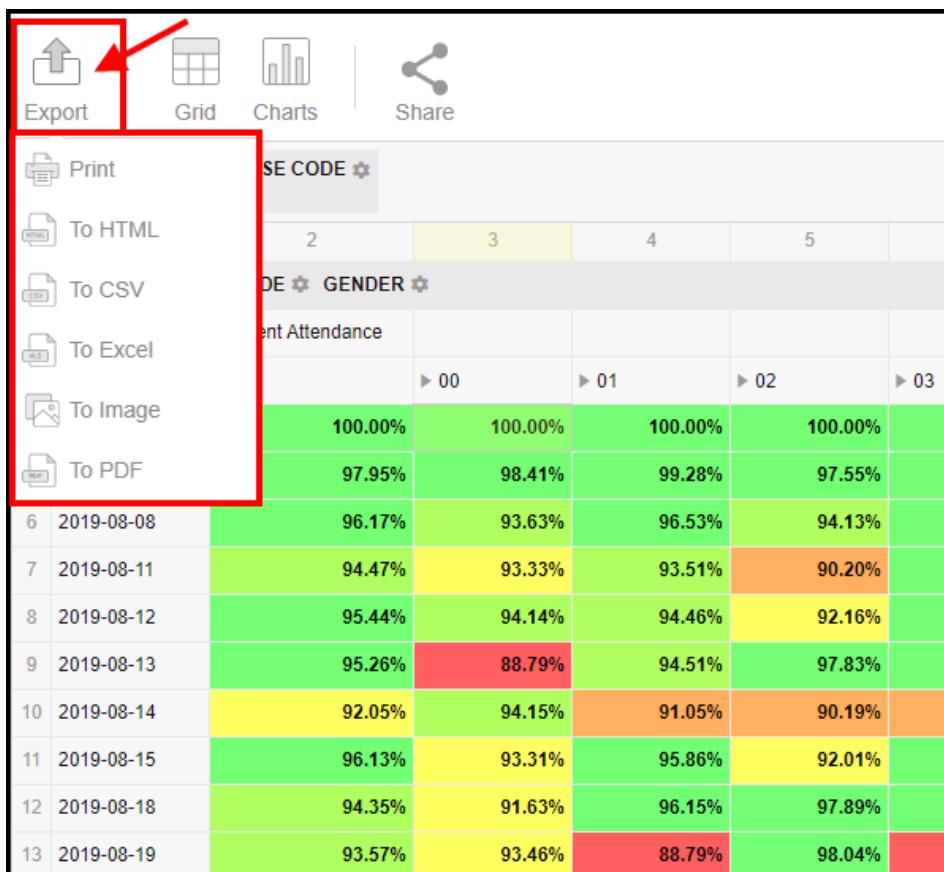

For more information about format and layout options, see the [Pivot Designer](#) article.

The screenshot shows the Infinite Campus Pivot Designer interface. At the top, there are icons for Export, Grid, Charts, and Share. On the right, there are buttons for Format, Fields, and Fullscreen, with 'Options' highlighted by a red box and an arrow pointing to a 'Layout options' dialog box. The dialog box contains sections for GRAND TOTALS and SUBTOTALS, both with 'Show grand totals' and 'Show subtotals' radio buttons selected. It also includes sections for LAYOUT with 'Compact form' selected, and for ROWS and COLUMNS. The main report area shows a grid of data with columns for DATE, GRADE, GENDER, and various attendance percentages.

Export and Share the Report

The report (pivot) can be exported to a number of different formats by clicking the **Export** icon and selecting an option.

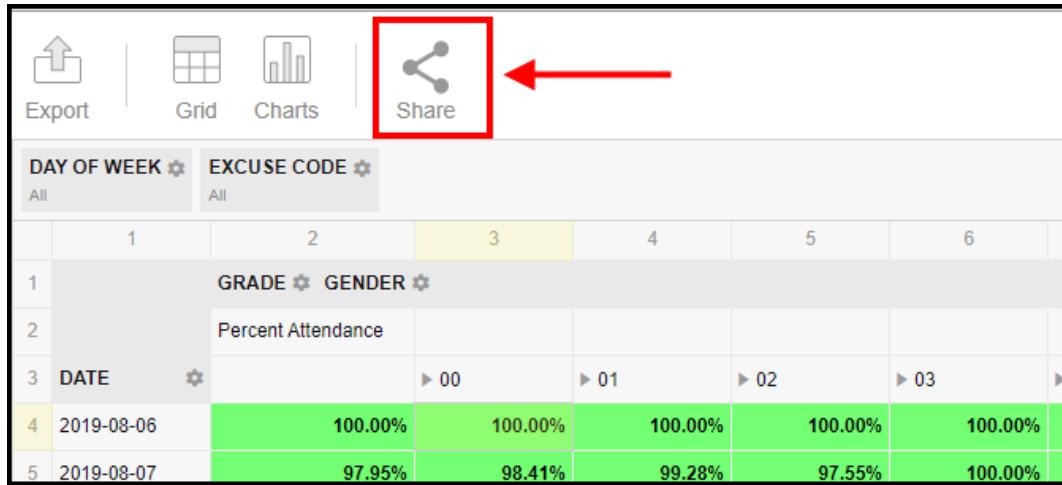

The screenshot shows the Infinite Campus Pivot Designer interface. The 'Export' icon is highlighted with a red box and an arrow pointing to a dropdown menu. The menu contains options: Print, To HTML, To CSV, To Excel, To Image, and To PDF. The main report area shows a grid of data with columns for DATE, GRADE, GENDER, and various attendance percentages.

You can also share the report (pivot) with other Campus users by clicking the **Share** icon and

copying the report URL.

Users attempting to access a pivot table via a shared URL will need to first be logged into Campus in order to access the tool and have proper calendar rights in order to see reported data.

The screenshot shows a pivot table interface. At the top, there are buttons for 'Export', 'Grid', 'Charts', and 'Share' (which is highlighted with a red box and a red arrow pointing to it). Below these are filter dropdowns for 'DAY OF WEEK' (set to 'All') and 'EXCUSE CODE' (set to 'All'). The main area is a grid showing 'Percent Attendance' for different dates and categories. The data is as follows:

	1	2	3	4	5	6
1	GRADE ⚙ GENDER ⚙					
2	Percent Attendance					
3	DATE ⚙	00	01	02	03	...
4	2019-08-06	100.00%	100.00%	100.00%	100.00%	100.00%
5	2019-08-07	97.95%	98.41%	99.28%	97.55%	100.00%
