

Custom GPA Calculation (Ohio)

Last Modified on 10/21/2024 8:21 am CDT

[Step 1 - Create GPA Calculation](#) | [Step 2 - Add the GPA to the School Calendar](#) | [Step 3 - Select GPA as GPA Requirement in a Graduation Program](#) | [Step 4 - Add Graduation Program to the Student](#)

One way to create a custom GPA calculation is using a stored procedure, which is a SQL query that is saved for future use. This article describes using a stored procedure provided to Ohio users by Campus to create a custom GPA Calculation.

The stored procedure described in this article is used for calculating GPA for grades 11 and 12.

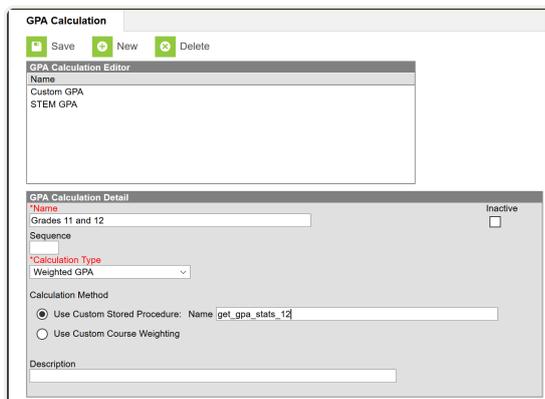

This article provides only a basic overview of the tools used when creating and using a custom GPA. See the articles linked in each section for more information.

Step 1 - Create GPA Calculation

Tool Search: GPA Calculation

First, create a new [GPA Calculation](#). Give the calculation a **Name** (such as Grades 11 and 12), select a **Calculation Type** of *Weighted GPA* and a **Calculation Method** of *Use Custom Stored Procedure*. Enter the following as the Name of the stored procedure:

get_gpa_stats_12

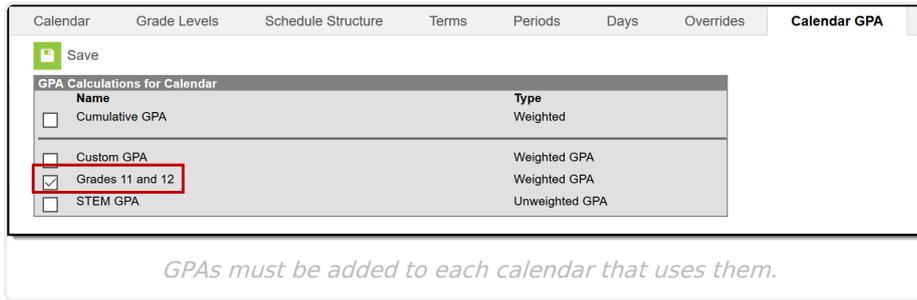

Create a new GPA calculation using the stored procedure shown above.

Step 2 - Add the GPA to the School Calendar

Tool Search: Calendar GPA Calculation Setup

Next, select a School and Calendar in the Campus toolbar and select the GPA you just created on

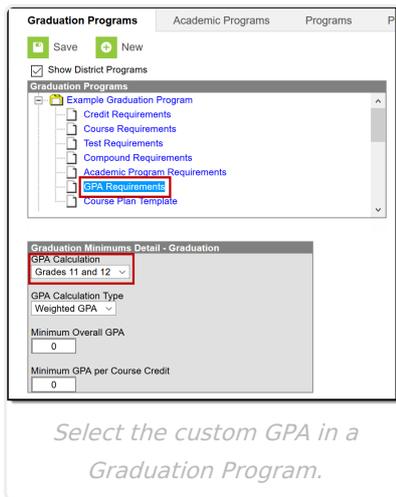

the [Calendar GPA](#) tool to add it to that school.

Step 3 - Select GPA as GPA Requirement in a Graduation Program

Tool Search: Graduation Programs

Next, create a [Graduation Program](#) with the GPA you created selected for the [GPA Requirements](#) section.

Step 4 - Add Graduation Program to the Student

Tool Search: Programs

Finally, select the Graduation Program that includes the custom GPA for a student on the [Programs](#) tool in Academic Planning.

Programs Progress Course Plan

Save Delete New Graduation Program New Academic Program

Academic Plan Editor

| Program | Start Date | End Date | Program Type | Flag |
|----------------------------|------------|----------|--------------|------|
| Example Graduation Program | 02/11/2020 | | Graduation | |

Graduation Program Detail

*Program
Example Graduation Program (Graduation) ▾

*Start Date End Date

02/11/2020

The last step is to add the program to the student.
