Tool Search: Calendar Override Setup

Calendar overrides apply to the programs a school offers to students. Overrides may be set for a person or on a household address. Person overrides take precedence over the household address override. A student may be denied enrollment to a school if the student does not live at an address within the school boundary. In this case, the student would need to obtain a person override to attend the school based on a specific curriculum program or administrative decision.

Overrides are created in the [Resources Override Type](#) tool.
