KY FRYSC State Report

The state extract will compile student and group level information at both the state and district level for FRYSC. The State Report will account for aggregate totals for Mode of Intervention, Time Frame and Individual Interventions and Group Programs. The FRYSC State Report will provide for detailed counts by category and program title. Group Programs details without participants will appear in the report in red, totals for # of Meetings, Program Hours, # of Volunteers, and # of Volunteer Hours will not be counted in the Group Program Aggregate totals.

FRYSC State Report Editor

Report Logic

The following report logic is used:

- Only FRYSC Individual Interventions and Group Programs active within the date range entered on the report editor are reported.
- The report includes students with enrollment records marked State Exclude and/or No Show.
- If a Group Program has no end date, the report will assume the end date is June 30th of the same FRYSC school year as the Group Program's Start Date.
- The Date Range on the report editor will default to the following:
 - Start Date will default to 07/01 of the school year selected in the Campus toolbar.
 - End Date will default to 06/03 of the school year selected in the Campus toolbar or the current date, whichever is earliest.
- **District Edition:** The generated filename is structured as follows:
 - FRYSC_DistrictNameCo_YYYY_State.pdf
 - The District Name is truncated so the word County is truncated to Co and the word Independent is truncated to Ind and any part of the name after the Co or Ind is removed. If a district has the word County or Independent, the name is not truncated.
 - YYYY represents the 4-digit end year being reported.
- **State Edition:** The generated file name is structured as FRYSC_YYYY_State.pdf where YYYY is the 4-digit end year being reported.

Generating the FRYSC State Report

Kentucky State Edition Users can generate this report for the entire state.

1. Enter the **Date Range**. Only FRYSC Individual Interventions and Group Programs active within the date range entered are reported.
2. Select the report **Format**.
 - **PDF** - Generates the report in PDF format. This is the only format option available for all Aggregation options.
 - **FRYSC State Summary CSV** - Contains all of the same data as the PDF format (with a few exceptions which are called out in the tables).
 - **State Individual Intervention CSV** - Contains only individual intervention data for the FRYSC Center(s) and calendar(s) selected on the report editor.
 - **State Group Programs CSV** - Contains only group program data for the FRYSC Center(s) and calendar(s) selected on the report editor.
3. Select the **FRYSC Center(s)** reporting data. Mark the **All FRYSC Centers** checkbox to report data for all FRYSC centers in the district.
4. Select the report Aggregation option:
 - **Combined Totals** - All data is combined into one report. This must be selected in order to generate CSV report formats.
 - **By School** - The report is generated once for each School but is presented as a single PDF.
 - **By FRYSC Center** - The report is generated once for each FRYSC Center but is presented

as a single PDF.

5. Filter data by selecting an **Ad Hoc Filter** (optional).
6. Select the **Calendar(s)** reporting data. Mark the **All Calendars** checkbox to report data from all calendars in the school year.
7. Select how the report will be generated:

Generate Report	The report will generate immediately and display in a new window in the designated format.
Submit to Batch	The report can be scheduled for when it generates and will be sent to the Batch Queue tool.

Understanding the CSV Formats

See the following sections for more information about each CSV formats available.

- [FRSYC State Summary CSV](#)
- [State Individual Interventions CSV](#)
- [State Group Program CSV](#)

FRSYC State Summary CSV

The FRYSC State Summary CSV contains all of the same data as the PDF format (with a few exceptions, which are listed in the tables). Please see the [Understanding the FRYSC State Report - PDF Format section](#) and corresponding tables for detailed information about each field.

State Individual Interventions CSV

The State Individual Interventions CSV contains only individual intervention data for the FRYSC Center(s) and calendar(s) selected on the report editor. The Totals row at the beginning of the report will reflect logic detailed in the Summary Page - Individual Interventions section. Subsequent rows reflect the Detail Page - Individual Interventions data element logic.
