

Ed-Fi v3.X - Ed-Fi Core Data

Last Modified on 09/18/2024 12:37 pm CDT

Tool Search: Ed-Fi

This information is only for customers using Ed-Fi version 3.X.

This article defines all of the elements of data sent per entity between Campus and the Ed-Fi system.

- - All data sends if there is a valid configuration and the resource is mapped, if needed, and toggled on. However, a resync needs to be done on a resource after turning it on or when a mapping has changed.
 - Data in schools and calendars marked as Exclude will not send data to Ed-Fi.
 - If calendar or school excludes are checked after data is sent, all sent data will remain and the Delete tool will need to be used to remove data.
 - Person-related records do not trigger a send of data to Ed-Fi if the person does not have an Ed-Fi ID value assigned.
 - Ed-Fi ignores custom field data entered in Campus.

A resource is a collection of related data which is sent in a cluster of data elements from Campus to Ed-Fi. Select the following links to view what data elements are contained and sent within that resource:

Attendance Information
Student School Attendance Event
Student Section Attendance Event
Cohort Information
Cohorts
Staff Cohort Associations
Student Cohort Associations
