Classic View: System Administration > Ed-Fi

Search Terms: Ed-Fi

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to set the resource preferences for the Student Academic Record resource. If the Configure or Edit button do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.

If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly.

1. Select the appropriate **Ed-Fi Code** for the Course Transcripts Term Descriptors.

Any item not mapped will not report to Ed-Fi.

Additional Information for Student Academic Records

Course Transcript records in Ed-Fi have a required reference to the Student Academic Record resource which requires a Term Descriptor in order to send to the ODS. When Transcript records are manually added to a student's Transcript tab, there is not a calculated way to determine in which term the student completed the course in order to align it to the proper Student Academic Record. There are two ways in which a Term Descriptor can be assigned to a manually added transcript record:

1. Ed-Fi Transcript Term Override field on the Transcript Course Editor:

Transcript Course Editor

*School Year 2018-2019	Grade 07	NCES Grade	District No. 144	School No. HC
*Course Number <input type="text"/>	Course Name		State Code	
SCED Subject Area <input type="text"/>			SCED Course Id <input type="text"/>	
Date <input type="text"/>	Actual Term <input type="text"/>	Start Term <input type="text"/>		
Terms Long <input type="text"/>	Calendar Terms <input type="text"/>	Term Start Date <input type="text"/>		
Ed-Fi Transcript Term Override <input type="text"/>				

This field should be used when multiple records for the same course are posted to the student's transcript in the same school year. If all students have only one transcript record per course in a school year, this field does not need to be populated and the Term Descriptor set for the Ed-Fi Transcript Term Override in the Student Academic Record Resource Preferences is used to report.

Example: Student receives a Fall Semester and Spring Semester grade in the same school year for the same course.

2. Set the Ed-Fi Transcript Term Override field on the Student Academic Records Resource Preferences:

Student Academic Records

Active <input checked="" type="checkbox"/>	Term Descriptor for Course Transcripts	
TranscriptCourse Ed-Fi Term Override	Ed-Fi Code	
1Q: First Quarter	First Quarter: First Quarter	
1S: Fall Semester	Fall Semester: Fall Semester	
1T: First Trimester	First Trimester: First Trimester	
Ed-Fi Transcript Term Override	Ed-Fi Code	
If Ed-Fi Transcript Term Override is blank or not mapped	First Quarter: First Quarter	

The Term Descriptor selected in the Ed-Fi Code field reports for all manually added transcript records where the Ed-Fi Transcript Term Override field is blank on the transcript record. This override is also used in all previous years transcript records where a valid term descriptor cannot be determined.
