Course Plan Batch Report

Batch version of the Course Plan Report. Separated by student, it is suitable for handing out to students.

This is a very complex report, so try to limit the number of students run per batch.

Report Logic

This report only generates information for the selected calendar in the Campus toolbar. Multiple calendars cannot be selected.

Only students who are assigned graduation programs are included in the report.

Report Editor

Data Element	Description
Student Filter Options	
Grade	Filters the students included in the report to the selected grade levels of enrollment. All Grades can be selected. Because this is a complex report, it is recommended that a specific grade level be selected.
Ad hoc Filter	Select an existing filter of students. Only those students included in the filter are considered for inclusion in the report. This filter can be selected in addition to a grade level. For example, if the filter includes all students with the last name of A, and the grade level selection is set to 10, only students in grade 10 who also have a last name that starts with A are included in the report population.
Program Filtering Options	
Graduation Programs	Filters the programs included in the report to the selected graduation programs. The category assigned to the program displays in parentheses behind the program name. Academic programs are not included.
Sort Options	
Student	This option displays students alphabetical by last name.
Grade/Student	This option displays students first by grade level of enrollment (09, 10, etc.), then alphabetical by last name.
Homeroom Teacher	This option displays students by the homeroom teacher, then alphabetical by last name.
Teacher/Period	This option displays students by the selected teacher, period, period schedule and term selected in the corresponding dropdown list. Students who are scheduled as of the last calendar day print on the report.
Report Format	The report can be generated in either PDF or DOCX format.
Report Generation Options	
Generate Report	Use the Generate Report button to display the results of the report immediately.

Data Element	Description
Submit to Batch	Use the Submit to Batch option to determine when the report generates. Because this is a complex report, if your selected student number is more than 50, use the Submit to Batch option.

Generate the Report

1. Select the **Grades** to include in the report.
2. Select the **Ad hoc Filter** to use to further narrow the results of the report, if desired.
3. Select the desired **Graduation Program**.
4. Select the desired **Sort Options**.
5. Select the desired **Report Format**.
6. Click the **Generate Report** button or the **Submit to Batch** button.
