

# State Enrollment Verification Report

Last Modified on 03/22/2024 9:06 am CDT

[Report Logic](#) | [Report Editor](#) | [Generate the Report](#)

**Classic Path:** [Student Information](#) > [Reports](#) > [State Enrollment Verification](#)

**Search Terms:** [State Enrollment Verification](#)

This report allows a district to compare its local student enrollment data to that existing at the state level. It should be generated regularly to promote early identification of gaps and inconsistencies in student enrollment data.

Comparing the results of this report with the results of the [State Person Identity Verification Report](#) may help in troubleshooting enrollment issues, as proper syncing of persons/identities is a precursor for enrollment syncing.

### State Enrollment Verification ☆

Student > Reports > State Enrollment Verification

#### Enrollment Verification Report

This report will communicate with the state edition server to compare local enrollments with the data that exists at the state, it will then generate a report that summarizes any differences.

Select Which Enrollments To Include

Selected School Year: 2020

Schools:
 

- All Schools
- CENTRAL ELEMENTARY SCHOOL
- DEWITT ELEMENTARY SCHOOL
- EK school
- Fiat Lick Elementary School
- G R Hampton Elementary School
- GIRDLER ELEMENTARY SCHOOL
- Jesse D Lay Elementary School
- Knox Appalachian School
- Knox Central High School

State Grade:
 

- All Students
- 00
- 01
- 02
- 03
- 04

Exclude Enrollments Matching Any Of These Additional Criteria

Calendar Excluded

No Show

State Excluded

State Exclude Grade Levels

State Unmapped Grade Levels

Select The Enrollment Fields To Compare Between District And State Edition

State Grade Level     Service Type  
 Start Date             End Date  
 Start Status             End Status  
 Schedule                 No Show (if included)  
 Next Calendar          Next Schedule  
 Next State Grade Level  End Action  
 Dropout Reason

Report Display Options

Show Summary Totals

Show Enrollments Missing At State

    Identify students missing at state due to overlap prevention

Show Enrollments Missing At District

Show Enrollments With A Field Difference

    Show Value At District And State Of Each Difference

Report Format: PDF

Image 1: State Enrollment Verification Report

**This report is only applicable to users who operate at the district level of a Campus State Edition product.**

**A BIE-specific report exists. See the [State Enrollment Verification Report \(BIE\)](#).**

The State Enrollment Verification Report layout includes the option to generate three sets of data for comparison:

- Enrollment data existing at the district level, but not at the state level
- Enrollment data existing at the state level, but not the district level
- Enrollment data existing at both the district and state levels, but containing inconsistencies or mismatched information

A summary of the number of enrollments for each of the three data sets will also be returned.

Data within this report is also available within the [Verification](#) tool of the Data Interchange folder.

## Report Logic

The logic used to generate results for this report is the same logic used for the [Resync State Data Tool \(District\)](#).

The report identifies people who have a district enrollment record that would sync to the state if a resync were performed. Identification of missing/incorrect records is based on students' enrollmentGUID.

## Report Editor

The report options page is broken into four areas that control the data sets returned by the report.

Option	Description
<p><b>Select Which Enrollments To Include</b></p>	<p>Indicates which enrollments are included in the report. To compare local enrollment records with the enrollment records at State Edition:</p> <ol style="list-style-type: none"> <li>1. Verify that the <b>Selected School Year</b> field reflects the proper year for the report. If reporting on the 2018-19 school year, 2019 should be displayed in field. This field auto-populates with the ending year of the school year selected in the Year field of the current user's Campus toolbar.</li> <li>2. Select the <b>School(s)</b> to include in the the report results. Select multiple schools by holding the CTRL key while clicking, or select the All Schools options to select all schools within the district.</li> <li>3. Select the <b>State Grade</b> level(s) to include in the report. Select multiple grade levels by holding the CTRL key while clicking, or select the All Students options to select all students, regardless of grade level.</li> </ol> <p>The grade levels list is based on the state grade levels that have been mapped to <a href="#">district grade levels</a>. The local district grade levels must be mapped to the same state grade code at both the district and state levels for report totals to be accurate.</p>

Option	Description
<b>Exclude Enrollments Matching Any Of These Additional Criteria</b>	Indicates which of the following options are excluded in the report. Marked options filter out those enrollments. ▶ <a href="#">Click here to expand...</a>
<b>Select The Enrollment Fields To Compare Between District And State Edition</b>	Indicates which student enrollment information is included in the report. This section of the report pulls from values of fields on the student <a href="#">Enrollments</a> tool. ▶ <a href="#">Click here to expand...</a>
<b>Report Display Options</b>	Determines the information to display on the generated report: ▶ <a href="#">Click here to expand...</a>
<b>Report Format</b>	Selection determines the desired format for the report - PDF, CSV or DOCX.

## Generate the Report

Data on this report is queried and presented in the report; it is not stored in the database.

1. Select the enrollments to include by selecting the **School Year, Schools** and **State Grade** levels.
2. Mark which enrollment information to exclude from the report.
3. Mark which enrollment information to include in the report.
4. Select the desired **Report Display Options**.
5. Select the desired format of the report.
6. Click the **Generate Report** button. The report displays in the selected format.

For the PDF and DOCX formats, If the **Show Summary Totals** checkbox was marked, the first page of the report is a summary page, containing data error totals. The subsequent pages of the report will contain details on mismatched data.

**18-19  
Traditional High**

Generated on 03/19/2019 01:55:41 PM Page 1

**Enrollment Verification Report**

Comparison of District Enrollment Data With State Data  
COUNTY PUBLIC SCHOOLS Verified: 03/19/2019 13:55

**Enrollment Verification Results**

The Enrollment Verification will compare all enrollment records existing at the district and state in the school year selected for verification. The Details column of the report may suggest a reason related to record differences.

**Enrollment Sync Rules**

Local and/or state-level settings may intentionally prevent syncing of certain enrollments. The following criteria can prevent enrollments from syncing:

- Individual Enrollment marked as state exclude
- Grade Level marked as state exclude
- System Preference - Enrollment Overlap Behavior ("Strict Prevent with Syncing" value only)
- System Preference - Accept State Excluded Grade Levels and Enrollments ("No" value only)
- Unmapped State/Regional Grade Levels

The success of Enrollment object syncing depends on the successful syncing of these parent objects:

1. District
2. School
3. Calendar
4. ScheduleStructure
5. StructureGradeLevel
6. PersonIdentity

**District Verification Summary**

Total	District Count	State Count	Missing At State	Missing At District	With Field Difference
COUNTY PUBLIC SCHOOLS - ALL	1723	1720	3	0	6
18-19 Traditional High	1723	1720	3	0	6
