

# Tool & Calendar Right Access Report

Last Modified on 04/02/2024 10:30 am CDT

Tool Search: Tool & Calendar Right Access

The Tool and Calendar Right Access Report allows you to view a list of all users or user groups who have been granted tool rights for a specific tool and/or rights to a particular calendar.

You must have a [Product Security Role Assignment](#) of '**Student Information System**'. You cannot assign tool rights for this tool.

## Understanding Tool Options

This section describes each field available on the Tool & Calendar Rights Access editor.

Field	Description
<b>Tool</b>	User accounts or user groups with tool rights to the tool selected in this field are reported.
<b>Calendar</b>	User accounts or user groups with rights to access/view data within the calendar selected in this field are reported.
<b>Rights</b>	User accounts or user groups with these access rights for the Tool selected in the editor are reported. R = Read, W = Write, A = Add, D = Delete
<b>Output</b>	Determines if User Accounts or User Groups who meet report criteria are reported.
<b>Format</b>	Determines if the report is generated in PDF or CSV format.

## Understanding the Tool & Calendar Report

The following sections describe each section of the User Account and User Group versions of the Tool & Calendar Right Access Report.

- [User Account](#)
- [User Groups](#)

### User Account

The following table describes each part of the User Account version of the Tool & Calendar Right

Access Report.

Area	Description
<b>Header</b>	The header indicates the calendar, tool rights, access rights, and the number of users who meet the criteria entered in each field.
<b>Role Legend</b>	The legend describes how to interpret Role values reported for each user. This information is useful in determining if the user's role(s) match the need for the tool and access rights granted.
<b>Person, Employment, Account and Assignment Information</b>	<p>The body of the report indicates each reporting user's person, employment, user account, role, and school calendar information.</p> <p>The Granted Access column indicates how the user acquired tool rights for the reporting tool. A value of 'User Account' means the user was assigned tool rights to the tool via the <a href="#">Tool Rights</a> tab. A value of 'Student Information System' means the user has a <a href="#">Product Security</a> role of 'Student Information System' and thus has rights to tools within Campus. If a user acquires rights via a user group, the name of the user group(s) will be reported in this column.</p>

## User Groups

The following table describes each part of the User Groups version of the Tool & Calendar Right Access Report.

See the [User Groups](#) article for more information about managing user groups within Campus.

Area	Description
<b>Header</b>	The header indicates the calendar, tool rights, and access rights of user groups who meet the criteria entered in each of these fields.
<b>User Group Information</b>	The body of the report indicates which user groups match the report criteria and how many users are members of each user group.

# Generating the Tool and Calendar Access Report

The following sections describe different ways to generate and interpret the report.

- [Viewing Users Who Have Rights for a Specific Tool](#)
- [Viewing Users Who Have Rights to Access a Specific Calendar](#)
