Student Selection	<p>In addition to the birth date selection, users can include students who meet the birth date range but are narrowed by a grade level selection or by inclusion in an Ad hoc Filter. For students who have different primary addresses (i.e., a Post Office Box as the mailing address), schools can decide which type of address to print on this report.</p> <p>If a household has two primary addresses or two mailing addresses, the report will only print one.</p> <p>Only one address will be printed, even if the student has multiple addresses.</p>
