*Service Provider Detail Report Editor*

Unlike the [Service Provider Summary Report](#), the Service Provider Detail Report lists student names in addition to the type of service being provided and the service information.

## Report Logic

Locked plans are referenced to pull service information and service providers. Service information prints for non-locked plans, reporting the same information except for the name of the Service Provider. A student is listed once per service per provider. This means the student's name may be listed more than one time for each service provider.

## Report Editor

The following fields are available for entry:
