Tool Search: RTI Intervention Positions

Intervention Positions define the position of the Intervention Provider on student RTI plans.

For example in Image 2, when the staff member has created a new RTI plan for a student and has identified the Intervention Provider, they are then able to indicate the position (Specialist) of that provider from a predefined set of options.

The screenshot shows the 'RTI Intervention Positions' tool interface. At the top, there is a green header with the 'Infinite Campus' logo and a search bar labeled 'Search for a tool or student'. Below the header, the title 'RTI Intervention Positions' is displayed with a star icon. A breadcrumb trail reads 'Student > Student Information Settings > RTI Intervention Positions'. Below the title, there are three buttons: 'Save' (green), 'Delete' (green with an 'X'), and 'New' (green with a plus sign). The main area is divided into two panels. The left panel, titled 'Positions Editor', contains a table with two rows: 'Name' and 'Specialist'. The right panel, titled 'Position Detail', shows a form with a red asterisk next to the 'Name' label, a text input field containing 'Specialist', and a checkbox labeled 'Active' which is checked.

RTI Intervention Positions Tool

See the [RTI Interventions Position Tool Rights](#) article for information related to tool rights for this tool.

## Create RTI Intervention Positions

1. Click the **New** button. The Position Detail editor will appear on the right.
2. Enter the **Name** of the position.
3. Select the **Save** button. The intervention position is now available for selection on RTI plans (see Image 2).
