Search Terms: RTI Intervention Positions

Intervention Positions define the position of the Intervention Provider on student RTI plans.

For example in Image 2, when the staff member has created a new RTI plan for a student and has identified the Intervention Provider, they are then able to indicate the position (Specialist) of that provider from a predefined set of options.

Create RTI Intervention Positions

1. Click the **New** button. The Position Detail editor will appear on the right.
2. Enter the **Name** of the position.
3. Select the **Save** button. The intervention position is now available for selection on RTI plans (see Image 2).
