Report Logic

The report uses School Choice data from the student's [Census School Choice](#) tool and any existing enrollment records. Any School Choice records marked as **APP: Approved** are compared with the student's enrollments for the next school year.

Report Editor

The following options are available on the Application Conflict Report.

Field	Description
School Selection	Selection indicates which school is used to find application conflicts. At least one school must be selected in order to generate the report. The school selection determines the calendars that can be selected.

Field	Description
Calendar Selection	Selection indicates which calendars are used to find application conflicts. At least one calendar must be selected in order to generate the report. Calendars can be selected by the Next Year (where the applications exist), by School or by Year. The calendar selection determines the available grade levels.
Grade Selection	Selection indicates which grade levels are included in the report. This list is based on the selected calendar. Choosing a grade level is optional and not required for the report to generate; however, if multiple schools and calendars are selected, choosing grade levels will limit the results returned.
Report Format	The report can be generated in either PDF or DOCX format.

Generate the Application Conflict Report

1. Select the **Schools** to include in the report.
2. Select the **Calendars** for the selected schools to include in the report.
3. Select the **Grade Levels** to include in the report.
4. Select the desired **Report Format**.
5. Click the **Generate Report** button.

The report displays in a new window listing students who have conflicts with school choice applications.
