

# Student Interchange - School Association (Colorado)

Last Modified on 12/15/2025 9:39 am CST

Tool Search: Student Interchange

The School Association Report lists all students enrolled in the selected calendar as of the entered effective date in grades EE-12. Any incident of mobility (entry, exit, grade change, etc.) for each school within the LEA at any point in the currently selected school year should be submitted. Since the SSA file contains funding information, a Local Education Agency (LEA) must have a record at this level. A student must have at least one record and may have multiple records at the school level.

## Report Logic

[Attendance Calculations](#) | [Continuous in District and School](#) | [Non-Binary Gender Reporting](#)

Students are included in the report when a student has a primary enrollment in a state grade with an enrollment start date that is before the Effective Date. When the **Include Partial Enrollments** checkbox is marked on the Extract Editor, partial enrollments in the selected calendar are also

included.

Students are not included in this report when:

- Enrollment records are marked as No Show.
- Enrollment records are marked as State Exclude.
- Grade level is mapped to a state grade level of 002.
- Grade levels are marked as State Exclude.
- Calendars in which the student is enrolled are marked as State Exclude.

When the student's Start Status is 00: No/Not Applicable - summer dropouts only (reported in field 10, Entry Type) and when the student's End Status is 40: Discontinued schooling/dropped out (reported in field 12, Exit/Withdraw Type), these fields report as zeros up to the length of the field:

- Field 3, School Code (4 digits)
- Field 8, Entry Date (8 digits)
- Field 11, Exit/Withdraw Date (8 characters)

## Attendance Calculations

This report uses the Attendance Day Aggregation table for calculating attendance. See the following articles for more information on this table:

- [Attendance Aggregation Preferences](#)
- [Attendance Aggregation Refresh](#)

## Continuous in District and School

A student is considered **continuous in district** as long as the student had a primary enrollment as of the **Continuous in District Dates** and any primary enrollment from that date to the end of the school term, as long as the student was enrolled in all *instructional* days to the end of the school term. Multiple primary enrollments must be considered.

A student is considered **continuous in school** as long as they had a primary enrollment as of the **Continuous in District Dates** and any primary enrollment from that date to the end of the school term as long as the student was enrolled in all *instructional* days to the end of the school term. Multiple primary enrollments must be considered.

When the Continuous in School value reports as a 1 for a student, the Continuous in District value also reports as a 1.

Override fields exist on the [state reporting enrollment editor](#). Values chosen in those fields report. When there are no values chosen, the report follows this logic:

Reported Value	Reporting Population

## Non-Binary Gender Reporting

Schools can assign students a gender of M: Male, F: Female or N: Non-binary. This is done on the [Identities](#) tool and/or the [Demographics](#) tool.

Data Pipeline Extracts and other required extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a gender of N: Non-Binary, on the Identities tool:

1. Assign the **Gender of N: Non-Binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** field to M: Male, F: Female or N: Non-Binary.
3. Save the record when finished.

## Report Editor

Field	Description
<b>Report Type</b>	Selection determines the Student Interchange report that generates. Choose <b>School Association</b> .
<b>Report Format</b>	Selection indicates which layout of the report generates.  When choosing a 2023-24 calendar, choose the <b>2023-2024 Format</b> ; when choosing a 2024-25 calendar, choose the <b>2024-2025 Format</b> .
<b>Ad hoc Filter</b>	Select a saved ad hoc filter to only include those students in the filter in the report, assuming those students meet the reporting logic and business rules of this report.
<b>Effective Date</b>	The entered date is auto-populated to the current date and returns those students actively enrolled in the selected calendar on this date.
<b>Attendance Start Date</b>	Entered start date is used to calculate attendance day information from the entered start date through the entered end date.
<b>Attendance End Date</b>	Entered end date is used to calculate attendance day information from the entered start date through the entered end date.
<b>Include Partial Enrollment</b>	When marked, students who have partial enrollments are included in the report population.
<b>Report Legal Name</b>	When marked, the student's name and gender report from the Protected Identity Information section on the student's <a href="#">Identities</a> record.

Field	Description
<b>Exclude Attendance</b>	<p>When marked, the following fields are zero-filled in the extract:</p> <ul style="list-style-type: none"> <li>• Total Days Attended</li> <li>• Total Days Excused</li> <li>• Total Days Unexcused</li> <li>• Total Possible Attendance Days</li> <li>• Habitually Truant Status</li> <li>• Total Days Missed Due to Out-of-School Suspensions</li> </ul> <p>Mark this checkbox when generating this report for your district's needs. DO NOT mark this checkbox when submitting it to the state.</p>
<b>Exclude Cross-Site Data</b>	When marked, students enrolled as Cross-Site Students at one or more schools are excluded from the report.
<b>Format</b>	The School Association report can be generated in either CSV or HTML formats.
<b>Calendar Selection</b>	At least one calendar needs to be selected in order to generate the report. Reports can be selected by Active Year, School or Year.
<b>Report Generation</b>	The Student Layout extract can be generated immediately using the <b>Generate Report</b> button. Or, use the <b>Submit to Batch</b> button to select when the report is generated. See the <a href="#">Batch Queue</a> article for more information on this functionality.

## Generate the Report

1. Select the **School Association** from the **Report Type** field.
2. Select the desired **Report Format**.
3. If desired, select students from an existing **Ad hoc Filter**.
4. Enter the desired **Effective Date**, **Attendance Start Date** and **Attendance End Date**.
5. Mark the **Include Partial Enrollment** checkbox, if desired.
6. Mark the **Report Legal Name** checkbox, if desired.
7. Mark the **Exclude Attendance** checkbox, if desired.
8. Mark the **Exclude Cross-Site Data** checkbox, if desired.
9. Select the **Format** of the report.
10. Select the **Calendar(s)** from which to report information.
11. Click the **Generate Extract** button or use the **Submit to Batch** button. The report displays in the desired format.
