

OLR List Bank Replacer (Prime)

Last Modified on 01/29/2026 2:11 pm CST

This documentation applies to the Online Registration Prime version.

Tool Search: OLR List Bank Replacer

The OLR List Bank Replacer updates and replaces existing OLR List Banks with their Campus counterparts.

This tool should only be used in cases where a large number of codes and/or values are different between the existing OLR List and the Campus. Using the tool will cause the existing OLR list bank for the selected category to be completely deleted and replaced with the Campus list bank for that category.

OLR List Bank Replacer

Configuration *

2021

Purpose

This tool is used to replace an OLR List with a Campus List where a large number of codes/values are different between the two, or to populate a custom OLR List. For more information on this tool, please see the documentation in the Campus knowledge base.

OLR List *

Run

OLR List Bank Replacer

Select the **OLR List Bank Category** from the dropdown list. The **Current OLR List Bank** table populates with the matching online registration values. These values will be deleted and replaced with the codes and values that populate in the **Campus List Bank** table.

Click the **Run** button in the bottom right corner of the screen. The selected category has been updated.
