

# MN v3.3

Last Modified on 04/17/2025 2:30 pm CDT

This information is only for Minnesota customers using Ed-Fi version 3.3.

This article defines all of the elements of data sent per entity between Campus and the Ed-Fi system.

- All data sends if there is a valid configuration and the resource is mapped, if needed, and toggled on. However, a resync needs to be done on a resource after turning it on or when a mapping has changed.
- Data in schools and calendars marked as Exclude will not send data to Ed-Fi.
  - If calendar or school excludes are checked after data is sent, all sent data will remain and the Delete tool will need to be used to remove data.
- Person-related records do not trigger a send of data to Ed-Fi if the person does not have an Ed-Fi ID value assigned.
- Ed-Fi ignores custom field data entered in Campus.

For more information about proper Ed-Fi setup for Minnesota users, see the following:
