This association represents the McKinney-Vento Homeless Program program(s) that a student participates in or from which the Student receives services.

Object Triggering Logic

This table describes logic for triggering syncing of this object.

The Student Homeless Program Association reports from the Homeless tool.

Action	Trigger
Post	<ol style="list-style-type: none"> 1. When a new enrollment is saved for a student, and there is a Homeless record saved that overlaps the enrollment record, OR 2. When a new Homeless record is saved that overlaps one or more enrollment records. <ul style="list-style-type: none"> • When a student has two enrollments in the same School, Calendar & Schedule Structure with the same start date, report from the enrollment service type in the following order: <ol style="list-style-type: none"> 1. P: Primary Enrollment 2. S: Partial/Ancillary 3. N: Special Ed Services • When an enrollment with a higher priority is deleted, the enrollment with lower priority will post a new record. • When a student has two or more consecutive enrollments tied to the same school, if they overlap, the Homeless program records will be broken into multiple non-overlapping records, with the start date of the record matching the start date of the related enrollment, but the end date of the record calculated as the day before the enrollment start date of the next enrollment record. • When a student has two or more consecutive enrollments tied to the different schools, if they overlap, multiple Homeless records will be sent. • Do not send records if the Calendar Exclude check box is checked in the calendar the student is enrolled. • Do not send records if the School Exclude check box is checked in the calendar the student is enrolled. • Do not send a record if the No Show check box is checked. • When a new reportable Homeless record is saved for a student, and there is a reportable enrollment record that overlaps the reportable Homeless record. • When the reportable Homeless record's Start Date or End Date are updated so that they newly overlap a reportable enrollment record. • When the Enrollment record's Start Date or End Date are updated so that they newly longer overlap a reportable Homeless record. • When the Homeless Program record's Schools droplist was previously tied to a different school, but the Schools droplist is updated to point to a new school that the student has a reportable enrollment with. • Do not send records if the Calendar Grade Level "Exclude from State Reporting" checkbox is selected for the grade level that the student's enrollment is tied to.

Action	Trigger
Put	When the start date for an enrollment is changed. <ul style="list-style-type: none"> When an enrollment with a lower priority is changed, data will not send.
Put	When an enrollment is updated for a student. <ul style="list-style-type: none"> When the Homeless record is updated for a student.
Delete	When an enrollment is deleted. <ul style="list-style-type: none"> When a student has two enrollments in the same school for the same start date, records with lower priority will not trigger a delete. When the No Show check box is checked. When the reportable Homeless record is deleted. When the reportable Homeless record's Start Date or End Date are updated so that they no longer overlap a reportable enrollment record. When the Enrollment record's Start Date or End Date are updated so that they no longer overlap a reportable Homeless record. When the Homeless Program record's Schools droplist is updated so that it no longer matches any of the schools the student is enrolled in during the program record.

School Exclude, Calendar Exclude, Resource Toggle and Resync Logic

This table describes the School Exclude, Calendar Exclude, Resource Toggle and Resync logic of this object.

Action	Trigger
None	If a resource is toggled to 'OFF' after data has sent, all sent data will remain in the ODS but no new data will send.
Resync	If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table.
Resync	If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.
Resync	If a mapping is changed in Resource Preferences, a resync will need to be done to reflect the changes.

Natural Key Changes, Cascading Updates, and Deletes Logic

This table describes the Natural Key Changes/Cascading Updates and Deletes logic of this object.

Action	Trigger
Post/Delete	Natural Key changes: <ul style="list-style-type: none"> LEA Reference - District Numbers cannot change after data has been sent. If a district number changes, we would expect an Ed-Fi error and this change would not be supported. If an Ed-Fi ID changes, a delete/post will occur with the cascading deletes from the Ed-Fi ID Change triggers. If the Program Name or Program Type Descriptor mapping changes and a resync is completed. If the Start Date of the program record changes.

Action	Trigger
Delete	Cascading Deletes: N/A - no dependent resources.

Scope Year Logic

This table describes scope year logic of this object.

Logic
The record will send to any year the homeless record overlaps with if the student has an enrollment in that year.
Data will only send for the years that have valid configuration.

Resource Preferences Continued

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to set the resource preferences for the Student Homeless Program Associations resource. If the Configure or Edit buttons do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.

If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly. Any item not mapped will not report to Ed-Fi.

1. Select the appropriate **Ed-Fi Code** for the Homeless Primary Night Time Residency Descriptors.
