Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger
Post	<p>When a new enrollment is saved for a student, and there is a SAAP record saved that overlaps the enrollment record.</p> <ul style="list-style-type: none"> The SAAP Program record must have either a NULL Schools drop list value, or one that matches the school the enrollment is tied to. When a student has two enrollments in the same School, Calendar & Schedule Structure with the same start date, report from the enrollment service type in the following order: <ol style="list-style-type: none"> P: Primary Enrollment S: Partial/Ancillary N: Special Ed Services When an enrollment with a higher priority is deleted, the enrollment with lower priority will post a new record. Do not send records if the Calendar Exclude check box is checked in the calendar the student is enrolled. Do not send records if the School Exclude check box is checked in the calendar the student is enrolled. Do not send a record if the No Show check box is checked. When a new SAAP record is saved for a student, and there is a reportable enrollment record that overlaps the SAAP record. When the SAAP record's Start Date or End Date are updated so that they newly overlap a reportable enrollment record. When the Enrollment record's Start Date or End Date are updated so that they newly longer overlap an SAAP record. When the SAAP Program record's Schools drop list was previously tied to a different school, but the Schools drop list is updated to point to a new school with which the student has a reportable enrollment. Do not send records if the Calendar Grade Level "Exclude from State Reporting" checkbox is selected for the grade level to which that student's enrollment is tied.
Put	<p>When the start date for an enrollment is changed.</p> <ul style="list-style-type: none"> When an enrollment with a lower priority is changed, data will not send. When an enrollment is updated for a student. When the SAAP record is updated for a student.
Delete	<p>When an enrollment is deleted.</p> <ul style="list-style-type: none"> When a student has two enrollments in the same school for the same start date, records with lower priority will not trigger a delete. When the No Show check box is checked. When the SAAP record is deleted. When the SAAP record's Start Date or End Date are updated so that they no longer overlap a reportable enrollment record. When the Enrollment record's Start Date or End Date are updated so that they no longer overlap an SAAP record. When the SAAP Program record's Schools drop list is updated so that it no longer matches any of the schools the student is enrolled in during the program record.

Resource Preferences

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to enable the Student SAAP Program Associations resource for Ed-Fi reporting.

1. Set the Student SAAP Program Associations preference to **ON**.

The screenshot shows a configuration interface for 'Student Information'. At the top, there is a master toggle for 'Student Information' which is currently set to 'OFF'. Below this, a list of various program associations is shown, each with its own 'ON/OFF' toggle and a blue indicator dot. The 'Student SAAP Program Associations' entry is highlighted with a red rectangular box, and its toggle is set to 'ON'. Other entries include Students, Programs, Student 21st Century Learning Center Grant Program Associations, Student ADSIS Program Associations, Student CEIS Program Associations, Student Early Childhood Screening Program Associations, Student Education Organization Associations, Student Gifted Talented Program Associations, Student Homeless Program Associations, Student Language Instruction Program Associations, Student PSEO Concurrent Program Associations, Student PSEO Program Associations, and Student School Associations. Some entries have 'Edit' or 'Configure' buttons next to them.
