

MN v3.3 - Student Language Instruction Program Associations Resource Preferences

Last Modified on 12/14/2025 8:45 pm CST

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to set the resource preferences for the Student Language Instruction Program Association resource. If the Configure or Edit buttons do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.

If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly. Any item not mapped will not report to Ed-Fi.

1. The filter option at the top of the section can be used to filter by Behavior ResolutionType, State Code, and/or Owner. The various filter fields determine which information displays. The Fill options can be used to fill the Ed-Fi Code fields.
2. Select the appropriate **Ed-Fi Code** for the EL Service Type Descriptors.

Field	Description
State Code	Used to filter by state code.
Owner	Used to filter by owner.
Fill Ed-Fi Code	The code assigned to the EL Service Type.
Fill Empty	The selected option will fill all EL Service Types with the same Ed-Fi code.
Fill All	The selected option will fill all EL Service Types that do not have an Ed-Fi Code entered with the same Ed-Fi code.

EL Service Type
