The information on this page is only for Minnesota Districts using Ed-Fi version 3.3.

For more information about proper Ed-Fi setup for Minnesota users, see the following:

- Minnesota Ed-Fi Checklist for Starting the 2024-2025 School Year
- Minnesota Ed-Fi Data - v3.3

The Ed-Fi Configuration tool is used to establish Ed-Fi data resource preferences.

Once Resource Preferences have been selected, a valid configuration is made and Ed-Fi ID's are assigned to users, data will flow properly from Campus to Ed-Fi.

Ed-Fi Resource Preferences

Tool Rights

In order to modify and configure Ed-Fi Resource Preferences, you must have at least **R**(ead) and **W**(rite) tool rights values.

Ed-Fi Configuration Tool Rights

Prerequisites

- Ed-Fi functionality must be enabled via the Enable Ed-Fi System Preference.
- Ed-Fi should be properly configured via the Ed-Fi Configuration tool.

Resource Preferences

Resource Preferences determine which information is sent to Ed-Fi. These options apply to all schools within the district. If the state did not request a resource, it does not appear in this list, meaning different options may be available for different states. Some mapping screens may be 'read only' if specific business rules are required by your state. Consult your localized Ed-Fi articles for more information.

> Resources should be toggled off until all data setup is complete and the district is ready to send data to Ed-Fi.

1. Select the **Resource Preferences** button.

Resource Preferences

2. Click the **Edit** or **Configure** button to modify the resource preferences. Configure displays if preferences have not previously been saved. Edit displays when preferences have already been set and saved. Resources can be expanded by clicking the "+" sign or collapsed by clicking the " - " sign.

> If the Configure or Edit button do not display, then the resource does not need to be mapped and the

toggle button can be used to turn the resource on or off.

3. Select a link below to view how to set the Resource Preferences. Note that some attributes that need to be

reported to Ed-Fi are hidden. If a district wishes to map and report these attributes, then the attributes need to be un-hidden from the Custom Attribute Dictionary.
4. If needed, turn the resource preference to **ON.**
