

Course Bank (Report Multi-Language Editor)

Last Modified on 12/14/2025 8:45 pm CST

Tool Search: Course Bank

The Course Bank tool is used to translate the name of courses for custom transcripts and report cards. Options available are based on the active languages created in the [Language Groups](#) tool.

This functionality is available to districts who have purchased the Multi-Language Editor as an add-on service. For more information, contact the appropriate Client Executive.

The screenshot shows the 'Course Bank Editor' interface. At the top, there is a breadcrumb trail: 'Grading & Standards > Report Multi-Language Editor > Course Bank'. Below this, there is a 'Save' button. The main area is divided into two panels. The left panel, titled 'Language Group/Courses', shows a tree view with 'English' and 'Spanish' folders. Under 'Spanish', there are several course folders: '21st Century Skills', '2D Foundations A', '2D Foundations B', '3D Foundations A', '3D Foundations B', '7th Grade Homeroom', 'Accounting I', 'Accounting II', 'Adv Small Engines', and 'Advanced Ceramics'. The right panel, titled 'Translation Language', shows 'Spanish' selected. Below this, there is a table titled 'Course Bank Translations' with columns 'Translation', 'Description', and 'Seq'. The table contains one row: '2D Foundations B' in the 'Translation' column, '2D Cimientos B' in the 'Description' column, and '0' in the 'Seq' column.

Course Bank Editor

Enter Translated Course Name Text

1. Select a language from the Language Group editor.
2. Enter **Translation** text and the **Sequence** number to order the course name options. The Enhanced Transcript and Translated Core Report Card do not use this custom Sequence.
3. Click **Save** when finished.
