

Canned Comments Translation

Last Modified on 12/14/2025 8:45 pm CST

This functionality is available to districts that have purchased the Report Translation Module as an add-on service. For more information, contact the appropriate Client Relationship Manager.

Tool Search: Canned Comments Translation

The Canned Comments Translation tool is used to mass translate canned comments. The comments must be translated in [Canned Comments Bank](#) for the corresponding language before running this tool. The full comment on a student's grading score must also match 100% with a corresponding entry in the Canned Comments Bank in order for the translation to be applied.

Manually entering any text into a grading comment will cause it to not translate.
