

# Canned Comments Translation

Last Modified on 08/04/2025 1:13 pm CDT

This functionality is available to districts that have purchased the Report Translation Module as an add-on service. For more information, contact the appropriate Client Executive.

## Tool Search: Canned Comments Translation

The Canned Comments Translation tool is used to mass translate canned comments. The comments must be translated in [Canned Comments Bank](#) for the corresponding language before running this tool. The full comment on a student's grading score must also match 100% with a corresponding entry in the Canned Comments Bank in order for the translation to be applied.

Manually entering any text into a grading comment will cause it to not translate.

The screenshot shows the 'Canned Comments Translation' tool interface. It features a title bar with the text 'Canned Comments Translation'. Below the title bar, there is a 'Language' dropdown menu currently set to 'Spanish'. Underneath, there is a 'Term' section with radio buttons for 'Term 1', 'Term 2', 'Term 3', 'Term 4' (which is selected), 'Term 5', 'Term 6', and 'Term 7'. A question 'How would you like the language to be filtered?' is followed by two radio button options: 'Student's Home Primary Language' (selected) and 'Student's Preferred Language'. Below these are two filter dropdowns: 'Teacher Student Filter' set to 'All' and 'Course-Section Student Filter'. At the bottom of the form is a button labeled 'Translate Student Comments'.
