

Canned Comments Translation

Last Modified on 02/12/2025 9:48 am CST

This functionality is available to districts who have purchased the Report Translation Module as an add-on service. For more information, contact the appropriate Client Executive.

Tool Search: Canned Comments Translation

The Canned Comments Translation tool is used to mass translate canned comments. The comments must be translated in [Canned Comments Bank](#) for the corresponding language before running this tool. The full comment on a student's grading score must also match 100% with a corresponding entry in the Canned Comments Bank in order for the translation to be applied.

Manually entering any text into a grading comment will cause it to not translate.

Canned Comments Translation Tool

Translate Student Comments

1. Select a **Language**.

2. Select a **Term**.
 3. Select **How you would like the language to be filtered?**
 - **Student's Home Primary Language**
 - **Student's Preferred Language**
 4. Select an option from the **Teacher Student Filter** dropdown.
 5. Select an option from the **Course-Section Student Filter**.
 6. Click the **Translate Student Comments** button.
