

# Nebraska Ed-Fi Data v3.1 - Student Title 1 Part A Program Associations

Last Modified on 06/04/2024 2:18 pm CDT

This association represents the Title I Part A program(s) that a student participates in or from which the student receives services.

## Object Triggering Logic

This table describes logic for triggering syncing of this object.

In order for a Title 1 service to report, at least one of the Title 1 service checkboxes must be marked **AND** the Targeted Assistance checkbox must be marked on the student's enrollment in Student Information > General > Enrollments > State Reporting Fields.

Action	Trigger
Post	<p>When an enrollment is created and saved, and at least 1 of the Title 1 service checkboxes are checked, and Targeted Assistance is selected, it qualifies.</p> <ul style="list-style-type: none"> <li>• Only report a single record per school, per student, per enrollment Start Date.</li> <li>• If there are multiple enrollments in the same school that qualify, and have the same enrollment Start Date, report based on primacy of Service Type:               <ol style="list-style-type: none"> <li>1. P: Primary</li> <li>2. S: Partial</li> <li>3. N: Special Ed</li> </ol> </li> <li>• If there are multiple enrollments in the same school that qualify, with the same Service Type and enrollment Start Date, report the highest enrollmentID.</li> <li>• Do not report if the student's Enrollment has any of the following indicated:               <ul style="list-style-type: none"> <li>◦ No Show</li> <li>◦ Enrollment state exclude</li> <li>◦ Calendar exclude</li> <li>◦ School exclude</li> </ul> </li> </ul>
Post	If the service type is being changed for the enrollment record being reported in this resource, report a new record for the new properly reported enrollment, if previously not the reporting enrollment.
Post	When any field part of the natural key is updated.
Put	<p>Update the record if any other fields in this resource are changed that are not part of the natural key.</p> <ul style="list-style-type: none"> <li>• When any enrollment record that previously had at least one Title 1 service checkbox selected &amp; saved, and additional Title 1 services are selected and saved, update the services field.</li> <li>• When any enrollment record that previously had more than one Title 1 service checkbox selected &amp; saved, and at least one Title 1 services are subsequently unchecked and saved, and there is at least one Title 1 service still selected, update the services field.</li> </ul>
Delete	If the service type is being changed for the enrollment record being reported in this resource, delete the record if the enrollment is no longer the reported enrollment.
Delete	When any field part of the natural key is updated.
Delete	When any enrollment record that previously had at least one Title 1 service checkbox selected & saved, and all Title 1 services in that enrollment record are subsequently unchecked & saved, delete the record.
Delete	When any enrollment record that previously had at least one Title 1 service checkbox selected & saved, and the enrollment record is subsequently deleted, delete the record.

## School Exclude, Calendar Exclude, Resource Toggle and Resync Logic

This table describes the School Exclude, Calendar Exclude, Resource Toggle and Resync logic of this object.

Action	Trigger
None	If a resource is toggled to 'OFF' after data has sent, all sent data will remain in the ODS but no new data will send.
Resync	If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table.
Resync	If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.
Resync	If a mapping is changed in Resource Preferences, a resync will need to be done to reflect the changes.
Resync	Programs will only be update/deleted if a mapping is changed after a resync is completed and 'All Schools' is checked on resync. Programs are at the district level and students in another school may have a Student Program Association record that references the Program.

## Natural Key Changes, Cascading Updates, and Deletes Logic

This table describes the Natural Key Changes/Cascading Updates and Deletes logic of this object.

Action	Trigger
Post/Delete	Natural Key changes: <ul style="list-style-type: none"> <li>• LEA Reference - District Numbers cannot change after data has been sent. If a district number changes, we would expect an Ed-Fi error and this change would not be supported.</li> <li>• If an Ed-Fi ID changes, a delete/post will occur with the cascading deletes from the Ed-Fi ID Change triggers.</li> <li>• If the Program Name or Program Type Descriptor mapping changes and a resync is completed.</li> <li>• If the Start Date of the program record changes.</li> </ul>
Delete	Cascading Deletes: N/A - no dependent resources.

## Scope Year Logic

This table describes scope year logic of this object.

Logic
The record will send to any year the Title 1 record overlaps with.
Data will only send for the years that have valid configuration.
