Release Pack Campus.2024 - June 2020

Last Modified on 08/13/2026 9:41 am CDT

Release notes provide the applicable personnel the ability to review enhancements, modifications, and regulated changes prior to accepting an updated. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

The Release Information article lists the approximate release date of all 2020 Campus releases.

See the Rx Pack - Campus.2024 article for a list of Rx releases to the Campus.2024 release pack.

Questions or concerns regarding an update should be directed to Campus Support.

Infinite Campus is moving to update all servers to ICAS (Infinite Campus Application Service) 2.0.6, which incorporates Tomcat 8.5.50 and Java 1.8.0_232

Each ICAS release has a Campus version dependency and will require its own update before moving to a higher version of Infinite Campus. In order to update to Campus.2020 or Campus.2024, your production site must be on Campus.2016, which will include ICAS 2.0.6.

Campus Cloud Districts, you are set to be updated to Campus.2024.x this weekend, nothing more needs to be done on your part.

Cloud Choice and In-District customers already on Campus.2016 or 2020, you are set for when you submit your next update request.

Cloud Choice and In-District hosted customers on Campus 2012.x or lower, you will not be able to submit an update request for Campus.2020 or Campus.2024, as they are hidden from the Version dropdown until Campus.2016 has been installed. There are code dependencies in each package that require them to be taken separately, so a district must first request an update to Campus.2016 before you can upgrade to Campus.2024. Your district will only see versions up to Campus.2016.x in the Update Request tool, and not other updates that may have been released, until Campus.2016 and the associated ICAS package have been taken.

Self-hosted customers will need to install the ICAS package before or after updating to Campus.2016.x. For more information on how to install the ICAS package, please see the instructions that have been posted to the Self-Hosted Customers forum.

Technical Information

See the Technical Information - Release Pack Campus.2024 article for a list of schema changes in this release.

Academic Programs

Academic Planner – Progress tab double deducting credit amounts (SIS-111209)

The Academic Plan Progress tab and Academic Plan Progress report were double deducting credit amounts for students who received a failing score and failed to meet the Program's course minimum GPA requirement. This has been corrected.

Article(s): Progress (Academic Planning)

Path: Student Information > Academic Planning > Progress (tab)

Academic Planner – Alert showing when course is used in more than one plan (SIS-134886)

If a student was assigned two different academic plans where the same course is a requirement in both, a 'Course Requirement not met' alert displayed. This has been corrected.

Article(s): Course Plan (Academic Planning)

Path: Student Information > Academic Planning > Course Plan

Academic Planning – Tool Rights for Copy Program button updated (SIS-135150)

Tool Rights have been updated preventing a user with Read Only access to the tab sets for Graduation and Academic Programs from creating a new program using the 'Copy Program' button. Access to the copy feature is granted by Add rights to the Graduation or Academic Programs' tab sets.

Article(s): Create Academic Programs; Create Graduation Programs

Path: Program Admin > Programs > Graduation Programs/Academic Programs

Activity Registration

Custom Forms for Activity Registration (SIS-137588) **[Enhancement]**

In preparation for the Activity Registration module, which will be available in a future release, users can now upload and manage supplemental Activity Registration documents in the Custom Forms tool. The following Activity Registration options are now available in the Module field in Custom Forms: Activity, Athletics and Field Trip. Forms created with these new options can only be assigned to a student via the Campus School Store and Activity Registration. Please note, if there is already a custom module with the name Activity, Athletics or Field Trip, Campus will rename the custom module; e.g. Field Trip 1, and you can continue to use those forms.

Path: Campus Instruction > Reports > Section Summary

Counseling

Counselor Report not respecting District Assignment End Date (SIS-129511)

Report logic has been modified to the Counseling Effective Date field in the Counselor Report. Counselors with an end-dated District Assignment or with no District Assignment in a school will continue to display on the report if they are still an active Team Member for a student in the school.

If the Counseling Effective Date field is left blank, past and current Counselors will report for a student; this includes Counselors with an end-dated District Assignment and those who were, but no longer are, an active Team Member for a student.

Data Extract Utility

Data Extract Utility Now Available as Core Functionality (SIS-109884) **[Enhancement]**

The Data Extract Utility is now available as core functionality for all users. Using the latest secure file transfer protocols, this tool provides an automated way to extract and transfer data via a flat file from Infinite Campus servers to a third-party system.

> Note: No disruptions are anticipated to any existing DEU extract from this release. However, there is a slight risk that some non-standard DEU jobs may be impacted. Please verify that DEU extracts function correctly with the Campus.2024 release. If you have issues or concerns, please log a support ticket with Infinite Campus.

Also, please be aware that version 2 or higher of the SMB protocol is now required. The following versions of SMB will be supported:

- SMB 2 - Windows Server 2008 and Windows Vista SP1
- SMB 2.1 - Windows Server 2008 R2 and Windows 7
- SMB 3.0 - Windows Server 2012, Windows Server 2016 and Windows 8

FRAM

Additional Direct Certified Eligible Students (SIS-119925) **[Enhancement]**

Campus can now help you identify students who are receiving a free or reduced lunch as a result of a family member's eligibility being extended to them. A new checkbox called *Extended* was added to the Eligibility tool. When this checkbox is marked, it indicates that the eligibility is the result of a family member's eligibility being extended to the student. This checkbox is automatically marked when you select the ""Extend Direct Certification Status to Additional Students in Household"" option in the Eligibility Import Wizard. When you manually enter an eligibility record, the Extended checkbox is only available if you select a Direct Source.

If the student's eligibility is the result of a family member's eligibility being extended to them, an X displays in the Source/Extended column of the Eligibility Report and the Permission to Share Report. This information can also be retrieved using an Ad Hoc filter. The Ad Hoc field name is posElig.fromExtension (Student > FRAM > Eligibility).

Article(s): Import Standards

Path: Grading & Standards > Standards Bank > Import

Import Standards - Updating (SIS-137183) **[Enhancement]**

The Standards Import Wizard has been updated to allow users to re-import an existing CASE framework to capture updates made by the state, including added and removed items and updated content. To re-import, paste the URL of the framework into the wizard and follow the normal steps to import. Step 5 of the wizard lists updates that will be made to the standards bank upon import, items added to the framework, items with updated text, and items that have been archived. Note: when importing updated items, any changes previously made in the district's Standards Bank will be overwritten when the updated items are imported. For this reason, users have the option of declining an updated item by unmarking the checkbox in the list.

Article(s): Import Standards

Path: Grading & Standards > Standards Bank > Import

Snapshot Comparison Report (SIS-137206) **[Enhancement]**

A new report, Snapshot Comparison, is now available that districts can use to identify a student's score in

a class prior to distance learning. The report compares a student's posted grades and in-progress grades against a snapshot of what their grade would have been had it been calculated based only on assignments due between the entered start and end dates.
