Tool Search: Demographics

Demographics

The Census module tracks every person entry in Infinite Campus - parents, staff, students, emergency contacts, doctors, etc. Demographic data is used throughout Campus, utilizing historic details of each person. Some fields in the Census module are unique to each state. Other fields in the Census module do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary. For more information on these fields, see the Demographics article.

Person Information Editor

Birth Country

The Birth Country is the country listed on the student's birth certificate during initial enrollment. Please refer to the International Organization of Standards directory for more information on country codes.
