[Reporting Population and Business Rules](#) | [Generate the Report](#) | [Understand the Report](#)

Tool Search: Extracts

The Staff Attendance Extract allows users to mass export staff primary district assignment data for editing/manipulation of fields for staff attendance data that will later be imported back into Infinite Campus.

Staff Attendance Extract

Reporting Population and Business Rules

- All district assignments active as of the Effective Date will report.
  - Only district assignments marked as Primary are included.
  - Only district assignments within the selected calendar/school/district are included

Generate the Report

1. Select an **Extract Type** of 'Staff Attendance Extract'.
2. Enter the **Effective Date**. Only staff members with district assignments active on this date are included in the report.
3. Enter the report **Format**.
4. To generate the report without a header, mark the **Header Off** checkbox.
5. Select which calendar(s) to will report staff member data.
6. Filter reported data by selecting an **Ad Hoc Filter** (optional).
7. Click **Generate Extract** to view the report in the selected format or **Submit to Batch** to schedule when the report will generate.

Staff Attendance Report Output
