This information is current as of the Campus.2531 (July 2025) release.

The Documented Hearing Loss Extract collects information on students who have hearing loss primary disabilities or who are marked as having documented hearing loss on their enrollment record.

## Report Logic

A student reports when they have an active enrollment in the reporting calendar as of the Effective date or when the enrollment end date is populated on or before the Effective Date and has no other enrollment record after the ended enrollment record. To report, students must have:

- Documented Hearing Loss marked on their enrollment record
- And/Or a Primary Disability of 500: Deaf-Blindness, 515: Hearing Loss or 545: Deafness (Enrollments > Special Ed fields). When a student has both a disability and Documented Hearing Loss checked, report one record only

Special Education data reports from multiple places. Depending on the selected school year, data reports from different areas.

**When the selected school year is 2024-25 or earlier,** Special Education information reports from the student's Enrollment record for that year.

**When the selected school year is 2025-26 or later,** Special Education information reports from the Evaluation, Plan, Summary, and Enrollment data. For each field on the report, a logic check is performed in the following order:

1. **Evaluation** - the most recent Start Date that is on or before the effective date if one is selected (or December 1 of the selected school year if one is not selected) and not more than three years in the past, AND has a locked status.
2. **Plan** - the most recent start date that is on or before the effective date if one is selected (or December 1 of the selected school year if none is selected) and not more than one year in the past, AND has a locked status.
3. **SPED Summary** - the start date is on or before the effective date if one is selected (or December 1 of the selected school year if none is selected) and does not have an end date. When that is not found and there is summary data with a start date that is on or before the effective date if one is selected (or December 1 of the selected school year if none is selected) and the end date is after the effective date if one is selected (or December 1 of the selected school year if none is selected).

## Generate the Report

1. Enter the **Effective Date**. For students who meet report logic criteria, one record is reported for each student who has an active enrollment in the reporting calendar as of this date or an end-dated enrollment on or before this date.
2. Select which calendar(s) from which to report data.
3. Select the **Extract Format**: CSV or HTML.
4. Click **Generate Extract** to generate the report immediately or **Submit to Batch** to schedule when the report generates in the background. You can return to this editor and access the completed scheduled report in the Batch Queue List window.
